Are you failing to capture the attention of potential customers with your current signage? By incorporating eye-catching fonts, graphics, and powerful messaging, you can enhance the impact of your signs and improve your overall presence. When combined, these elements can create a visually striking sign that drives more foot traffic to your store.

Consider your **MESSAGE & AUDIENCE**

Words are one of the most important design elements in signage. Your message grabs the attention of those passing by and draws new customers in.

Choose the right **FONT**

Typefaces have personalities. The font you select should embody the character and spirit of your brand. Font size is also important for readability if your sign is seen from a distance.

Choose your **COLOR**

Color can affect the perception of your business. Having the right color is crucial for an effective sign.

DESIGN elements

Unique design elements help your sign stand out from the rest and leaves an impression.

Compliment your **COLORS**

Complimentary colors help make your sign legible from a distance and bring a visual design element to any sign.

IMAGE elements

When choosing a graphic, make sure it's a high-quality photo that can be resized without becoming blurry. A PDF or EPS file is a great option.

Building signs serve as a visual communication for your brand and can draw customers to your business before stepping foot inside. Building Signs are the first step to creating a positive customer experience, by showcasing your message and creating a memorable experience for your guests.

Building signs come in different shapes, sizes, and designs. Many can also be illuminated. From illustrating your brand to helping customers find their way at your facility, building signs are important to ensure a smooth customer experience every time.

Memorable building signs can set your business apart from the competition, its an underutilized billboard for your business. Effective building signs should make your business stand out, bring brand awareness to your community, help your business be easy to locate, and attract new customers.

CHANNEL LETTERS

Channel letters are widely favored among business professionals as a means of identifying their location. These signs can be applied both inside and outside the building, adding visual depth to the company's logo and name.

ILLUMINATED CHANNEL LETTERS

LED Illuminated Channel Letters are energy efficient, low voltage, and low maintenance. The lightweight design of an LED module virtually eliminates breakage. LED Illuminated Channel Letters provide the opportunity to create savings over a long period of time.

PRE-FORMED CHANNEL LETTERS

A pre-formed channel letter is exactly what it sounds like. It is typically formed from .040 prefinished aluminum that we shape into a letter or logo.

NON-ILLUMINATED CHANNEL LETTERS

Non-Illuminated channel letters are the affordable sign of choice, without the added cost of illumination. Illuminating your channel letters can be added at a later date when it works into your budget.

MONUMENT SIGNS

We want your monument sign to suit your needs and comply with local and state ordinances. Throughout the process, Signarama works closely with decision makers such as contractors, landlords, property managers and HOAs for our clients. Signarama can help you make a big impact with your signage.

ILLUMINATED MONUMENT SIGNS

Illuminated monument signs are necessary for visual impact and their ability to be seen in the dark. The range runs from simple lighting that turns on automatically to brilliant and colorful digital signs that broadcast your message for all to see.

SINGLE BUILDING MONUMENT SIGNS

Single building signs are designed to announce an established business, occupying an individual and stand-alone building. The materials and design create an impression of stability and permanence in your client's mind. They announce who you are and usually display your logo.

MULTI-TENANT MONUMENT SIGNS

Think of multi-tenant monument signs as a building directory on the outside of the building. They typically include the building name, address, and the tenants located in the building and are commonly used in retail locations, office buildings, and industrial parks.

All foamcore monument structures are manufactured using an EPS foam core which is sprayed with a poly-armor hard coat and finished with a 100% acrylic stucco finish. Raised or recessed graphics can be integrated into the structure for a complete and highly durable signage solution.

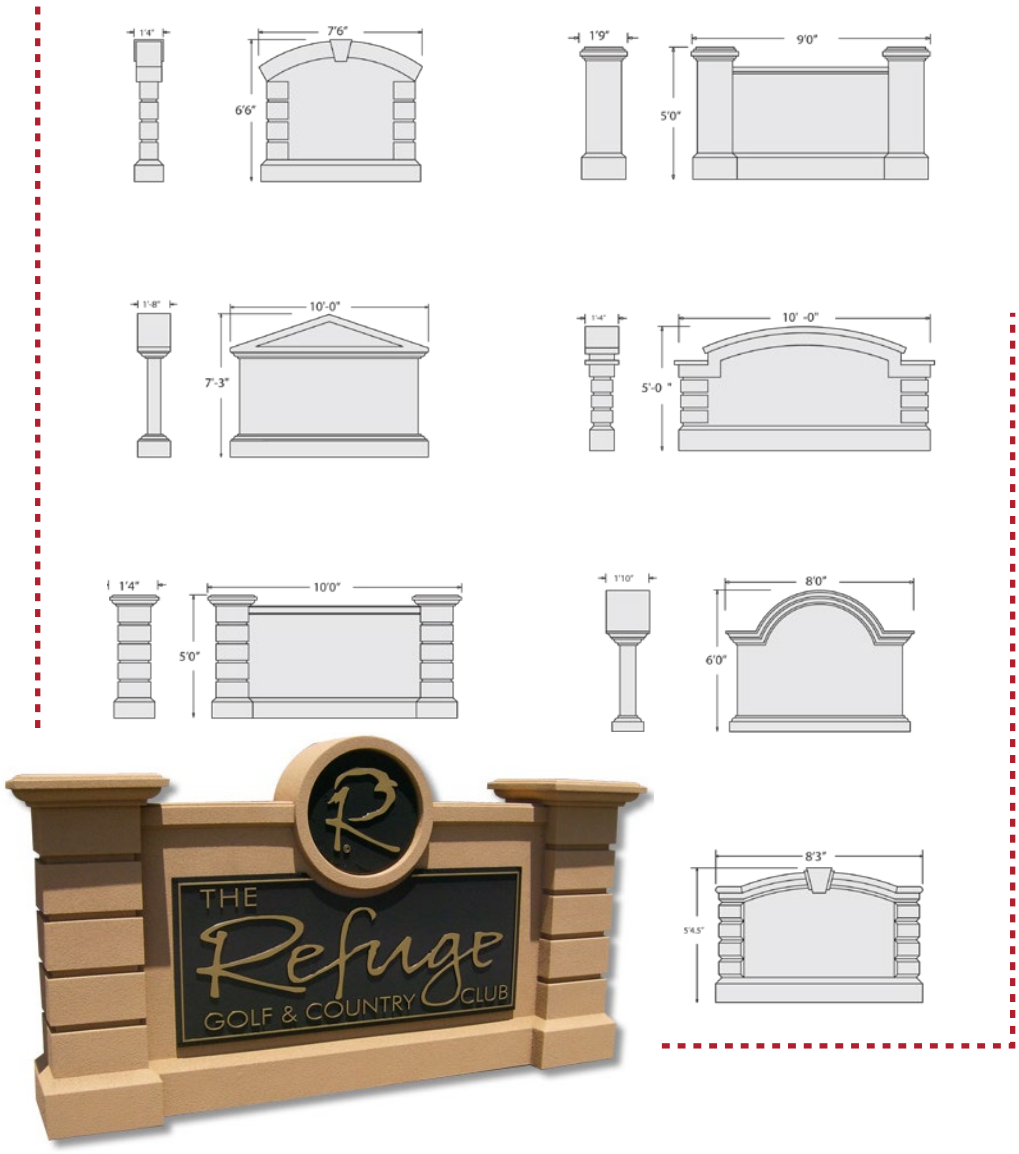

Foamcore monument signs are eye-catching, versatile and durable. This monument structure utilizes hand-sculpted faux stone accents and raised graphics. All stone or brick accents are hand-sculpted, and can be color-matched to compliment any existing or planned landscape.

Foamcore monument signs offer unmatched versatility. Your message doesn't have to be stationary. Foamcore monument signs can be custom-designed to include integrated LED message centers, changeable copy boards and more!

DESIGN YOUR PERFECT MONUMENT SIGN

When it comes of monument signs, we provide a wide selection of styles, finishes, and display options. We can craft a unique design that aligns with the aesthetic of your business and location. Our textures mimic a range of natural materials, and for the display, you can opt for either an LED integration or an interchangeable message board.

Scale Design Concept

Completed Project

WAYFINDING & DIRECTIONAL

Wayfinding signs make it easier for customers, guests, vendors, and employees to navigate your business. Not only do they serve a practical purpose, but they can also be tailored to reflect your company's branding.

PARKING & TRAFFIC SIGNS

Keeping the flow of customers smooth and safe is easy with parking and traffic signs. To ensure that each sign is long-lasting, they're manufactured from the highest-quality materials. Signarama can provide standard or custom-made traffic signs, approved by DOT (Department of Transportation) and up to code with local and state regulations.

INFORMATIONAL SIGNS

When a customer enters your business, help them make the most of their time by offering informational signage. Signarama offers many creative solutions to showcase your brand while helping your customers navigate through your business. Informational signs are used at many locations such as shopping centers, universities, and hospitals, but it's best to have informational signage in any public location.

WAYFINDING SIGNS

Get your customers where they need to go through wayfinding signage. Alert them to upcoming events through digital signage that can be updated quickly. Make a statement with back-lit dimensional lettering to make your business name pop. When you don't have someone available to greet customers as they enter your business, let informational signage make the best first impression.

STOP

IDENTIFICATION SIGNAGE

Identification is the most common type of wayfinding signage. They tell a person when they have arrived at their destination. They also serve as general wayfinding landmarks. Make identification signs uncluttered and straight to the point. What does the sign signify? Someone should understand it in seconds.

- Door plaques
- Departmental markers
- Landmark signage

DIRECTIONAL SIGNAGE

Directional signage helps people get to where they're going. It's an invisible hand guiding them from wherever they are to their destination, one step at a time. They're best used at junctions and areas without a clear traffic flow. Anyone unfamiliar with their surroundings benefits from diverse directional signage. It can be as simple as a plaque at each junction sending people left or right. Or, it may be as comprehensive as colored lines on the floor leading people directly to their destination.

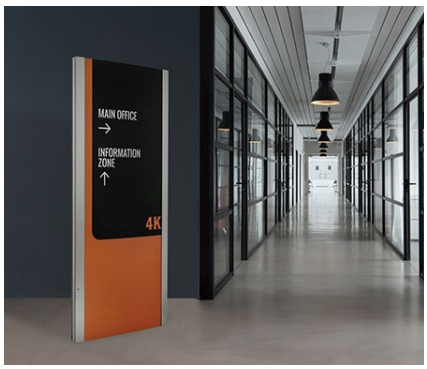

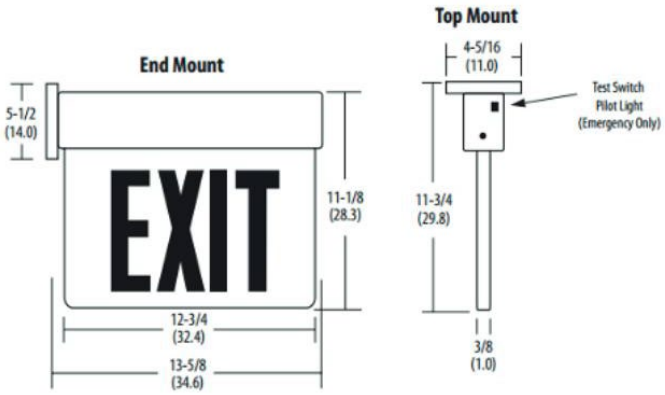

INFORMATIONAL SIGNAGE

Whereas identification signage marks a particular area, informational signage pertains to the overall facilities. These signs give people broad information they need while navigating. Informational signage is best placed in an area with extensive exposure. Lobbies, waiting rooms, building entrances, and atriums are popular examples. Signage should answer questions before they're asked. Where are your bathrooms? How late are you open? Do you have an elevator? Informational signage makes it easier to navigate your facility.

CARVED & SANDBLASTED SIGNS

Carved and Sandblasted signs showcase an artistic, classic quality for your brand. Carved and sandblasted signs are available in a variety of colors, sizes, shapes, and styles that best fit your brand. Signarama can create a custom sign to fit your individual needs.

TEXTURED BACKGROUND

Textured signs feature a beautiful and unique look such as traditionally textured wood grain or pebble surface as well as other custom textures such as wave, brick, diamond plate, and more.

CARVED SIGNS

Carved signs are perfect to help any business stand out with extra dimension and a natural quality that can't be achieved through traditional printed, screened, or applied vinyl techniques.

Carved signs are an elegant choice for anyone looking to stand out in their community. From homes, to restaurants we can help custom design the perfect sign to fit your needs and location. These signs can be custom shaped and painted with any color or metallic foil.

DIMENSIONAL LETTERING

Dimensional lettering (or logo) can be found almost everywhere; it's an extremely popular way to showcase your brand and promote your company. Dimensional lettering is a solution to illuminated lettering that can be completely customizable for both interior and exterior use.

Display your business name or logo and let Signarama help you to make an impact with your customers through custom dimensional lettering. Add another element of bold, high-impact marketing by making them illuminated through LED or neon.

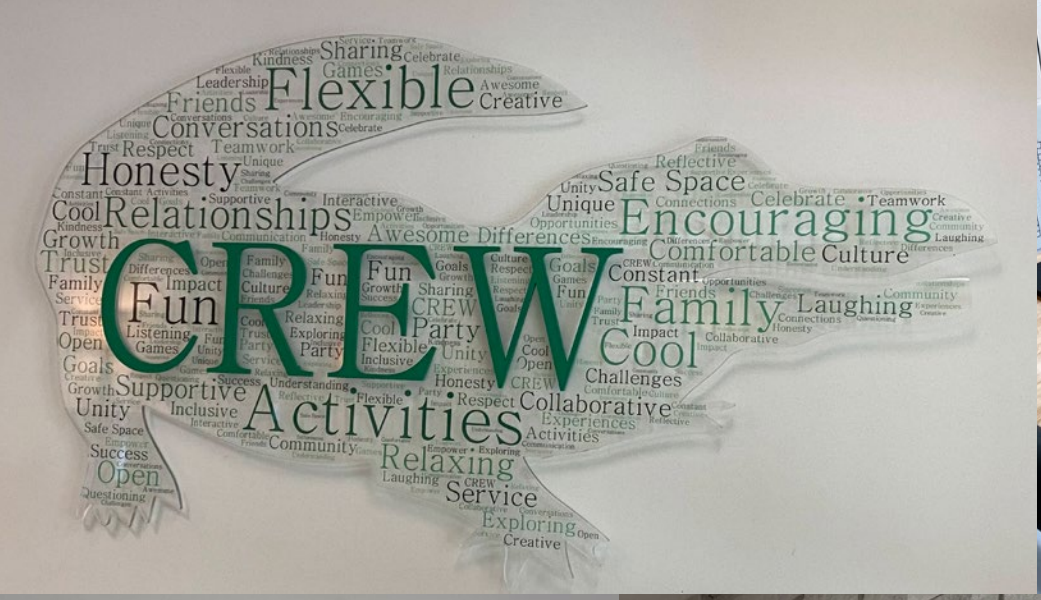

INTERIOR

"Dimensional letter" is a blanket term that covers numbers and logos as well. And, many organizations benefit from adding logo wall signs to their interior decor. You will often see these markers in conference rooms and common areas, such as cafeterias.

EXTERIOR

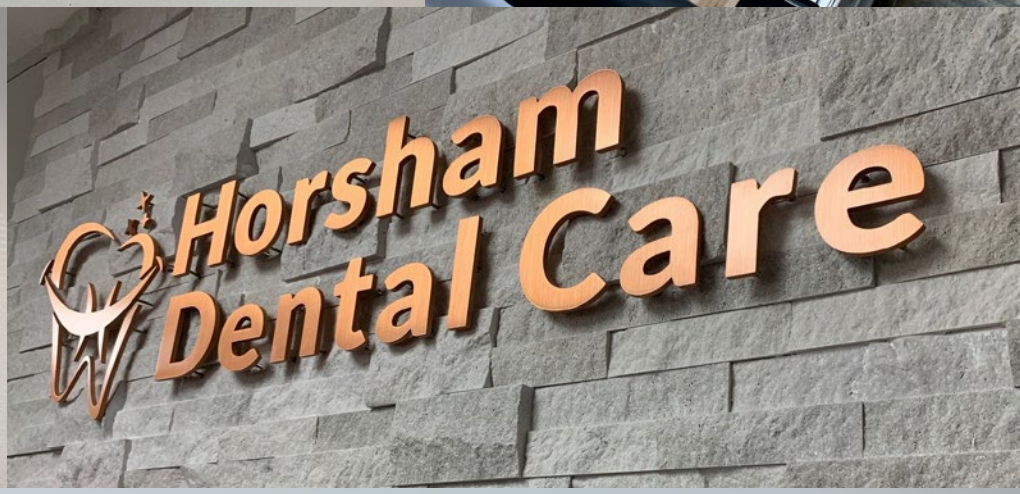

Exterior dimensional letters can benefit establishments, organizations, and companies in any industry. These markers are typically installed directly to the facade of buildings that are looking for a sophisticated appearance. They can also be incorporated into a monument sign or mounted on a panel that is then installed on your property.

Our design team is here to help bring your logo to life and help your business stand out.

PVC street signs are a perfect combination of beauty and durability. These signs are popular for government entities, subdivisions, golf courses and campgrounds. Signs can be mounted to a PVC post or used in conjunction with a decorative bracket.

Because the eye is drawn to objects that stand out, 3D signage is far more engaging than 2D signage. Make your signage POP and easy to read with dimensional lettering from Signarama.

AWNING GRAPHICS

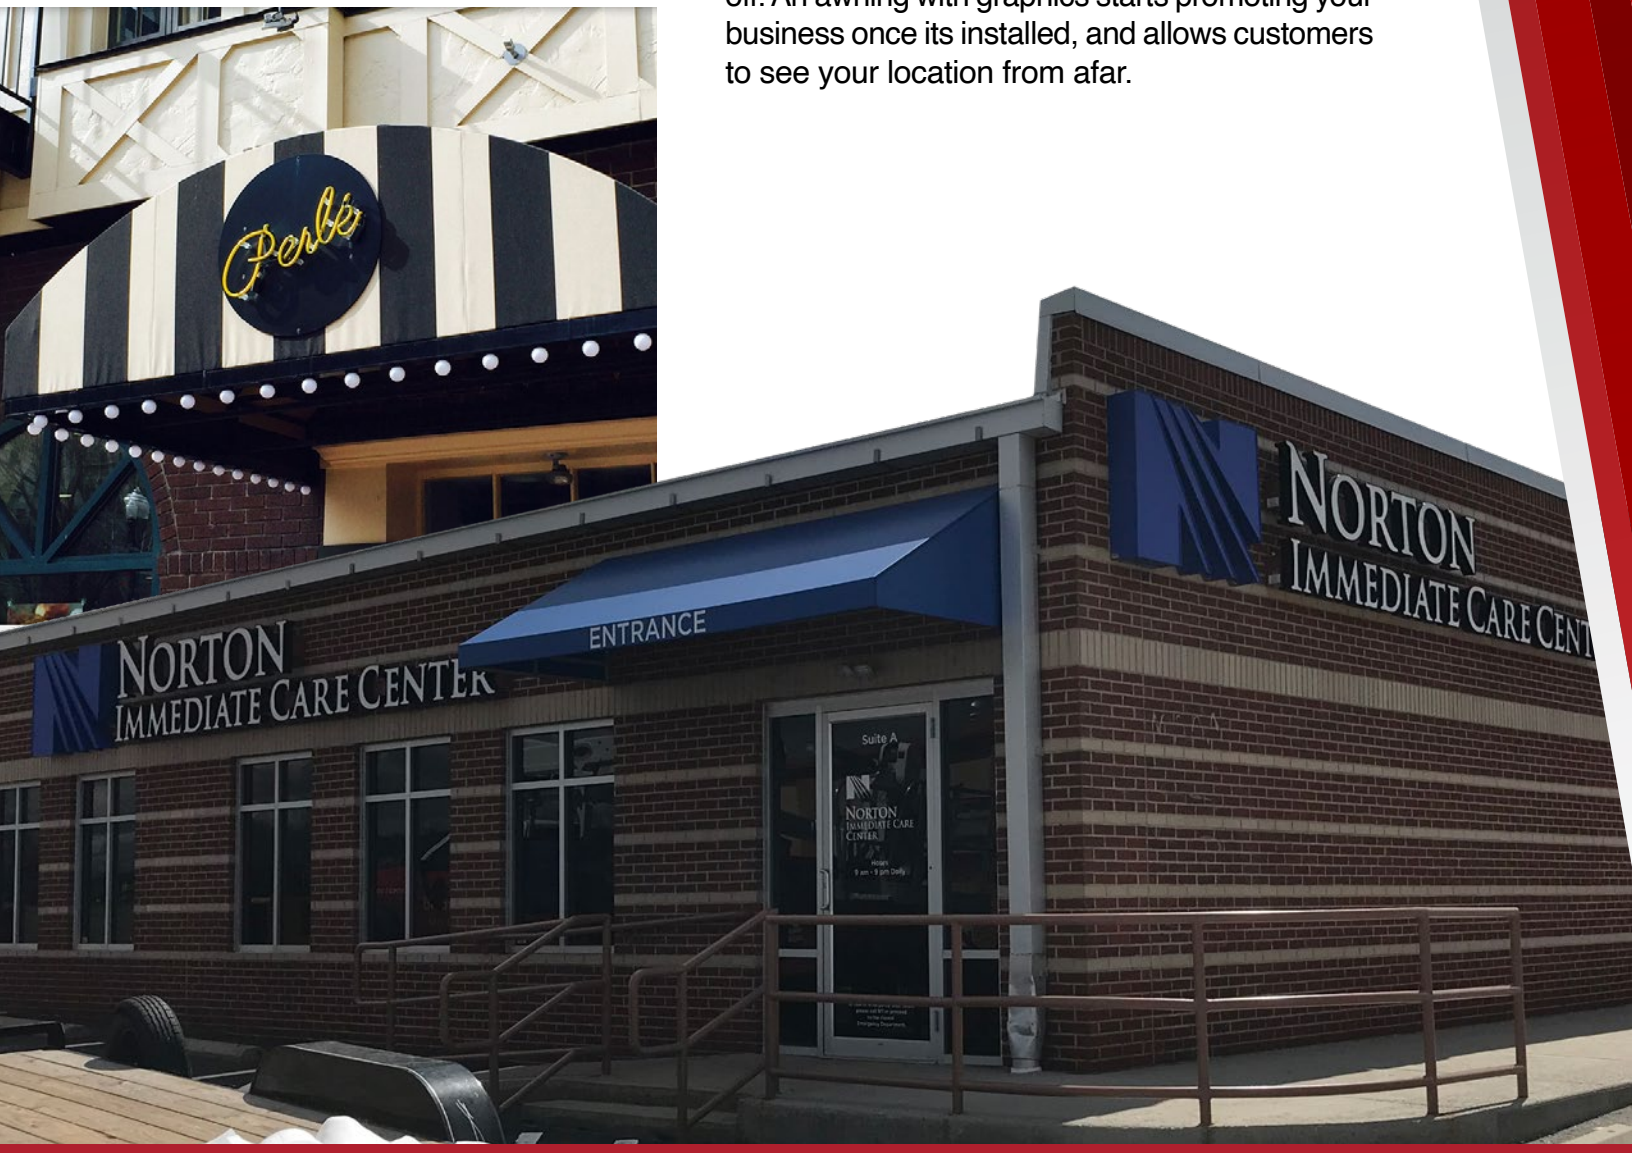

Awning graphics help improve the look of a business without the added maintenance costs that traditional signs have. Add a personal touch to your business awning with custom graphics. No matter how bright your brand's colors are, or how dynamic your branding is, take advantage of this exterior signage opportunity.

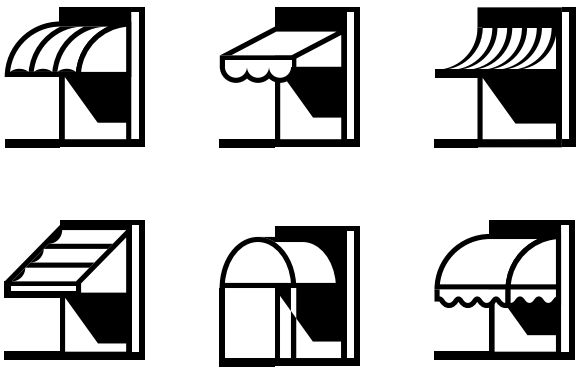

CURB APPEAL

A new awning can make your establishment look a little more stylish while allowing you to present your business name and logo like a sign. A well designed awning can draw attention to your place, potentially increasing the amount of traffic into your business.

LOW MAINTENANCE COSTS

With an awning, you won't need to worry about the appearance of your sign changing because a light is out or the entire sign being completely turned off. An awning with graphics starts promoting your business once its installed, and allows customers to see your location from afar.

Awning graphics can be used to market your business, while at the same time adding a decorative element. Awning graphics are available in a variety of styles and designs, and are customized to your locations architecture. Awning graphics can be ordered in a variety of materials and can be applied to either a canvas or fabric.

DIGITAL SIGNS

Page 46 - 51

When your goal is to make an impact, digital and lighted signs are the way to go. Illuminated signage attracts the attention of all passing by, whether day or night. Installing modern lighted signs such as lightboxes and LED backlit signs for your business can benefit you in other ways than getting your business noticed. Many have a long life, with quality LEDs lasting as long 50,000 to 100,000 hours. They are also environmentally friendly and low maintenance requiring lower power requirements and reducing electricity usage. Whether you need a bright lightbox, or full electronic message center, Signarama's sign experts can help determine the ideal signage for your business.

LEGAL DISCLAIMER: Signarama Inc. does not perform or offer to perform electrical sign work in any state. All Signarama sign centers are independently owned and operated. It is the responsibility of each Signarama sign center to comply with the licensing and regulation code requirements regarding electrical work and sign installation in their city, county and/or state.

Notice to Texas Residents: Signarama Sign Centers do not perform or offer to perform electrical work without possessing an electrical contractors license. No offer or advertisement to perform such work is directed to any Texas Resident.

ILLUMINATED SIGNS

Front and back lit letters are a combination of regular channel letters and reverse channel letters. These special products glow through the front and still give the rich halo effect on the back. These letters may be illuminated with either one or two colors depending on the desired effect.

EXTERIOR

These lighted business signs can be illuminated with LED halo lights to make them stand out in the evenings. The reason people refer to them as halo lit channel letters is because of the halo effect the light forms around the letters. A great advantage of using this type of lighted signage is it only needs to be illuminated at night, which can help reduce your energy costs. The lights used in these signs may be programmable, allowing you to change the colors or effects of the sign.

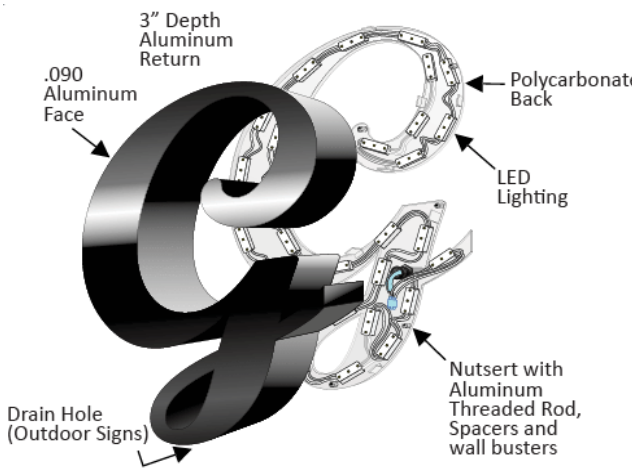

LED illuminated reverse channel letters feature an aluminum face and return, but a clear polycarbonate back allowing the light to create a halo effect around the letters or logos.

LIGHTBOXES

Lightboxes, a type of illuminated sign, are an eye-catching way to draw attention to your business or brand. Lightboxes also tend to be more practical because they are easy to use, easy to install, and easy to change should your logo or brand need updates.

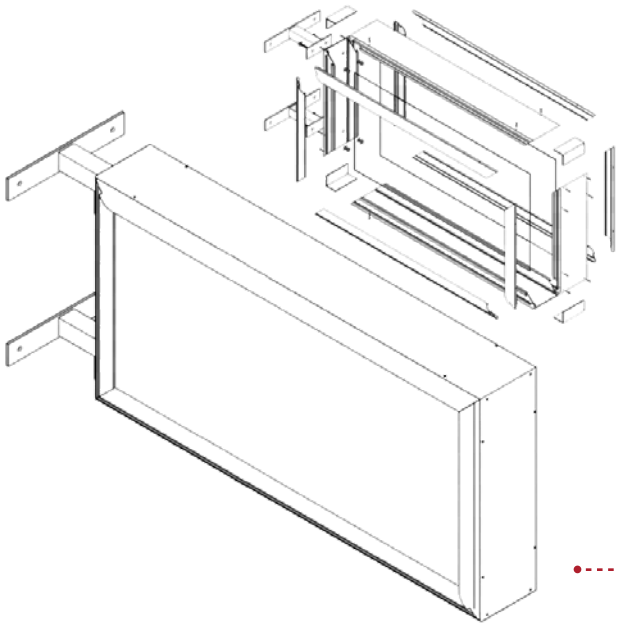

VERSATILITY

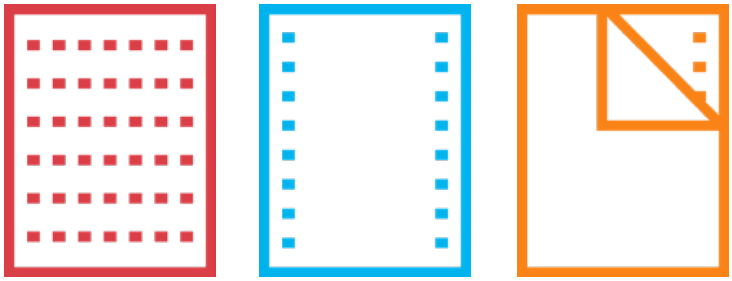

Translucent panels can be customized with the name of your company, logo, phone, address, and any other information you want to feature. Lightbox signs are versatile; they can be customized in a variety of different sizes making them useful for interior and exterior applications. The shapes of a lightbox can be molded to match your brand. This signage lighting type is popular for retail storefronts, bars, schools, church and gas station signs.

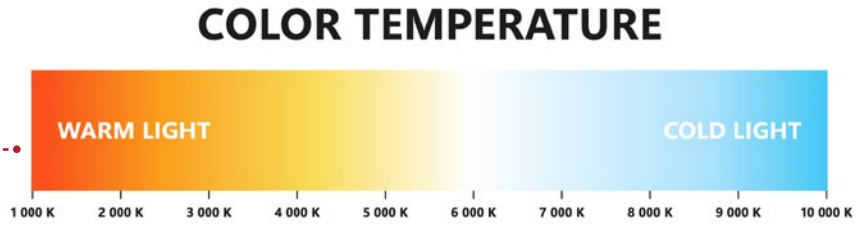

Showcase your graphics in the most flattering, even tones, with our fully customizable LED light boxes. Great for indoor or outdoor spaces.

LED lighting offers a wide range of color temperatures from warm reds and yellows, to cool tones that appear with a blue hue. The more natural lighting can be found in the middle of the scale and offers a white cast that simulates daylight.

DAY TO NIGHT

NEON SIGNS

Neon signs are one of the earliest lighted signage options, and are traditionally found in bars, restaurants, or other hospitality or service industry businesses. Recently, neon signs have expanded into the interior decor space with custom designed neon signs for personal use and branding.

NEON

Traditional neon is composed of glass and gas. Glass tubes are heated over an open flame and then hand bent to the desired shape. Once shaped they are then filled with an inert gas.

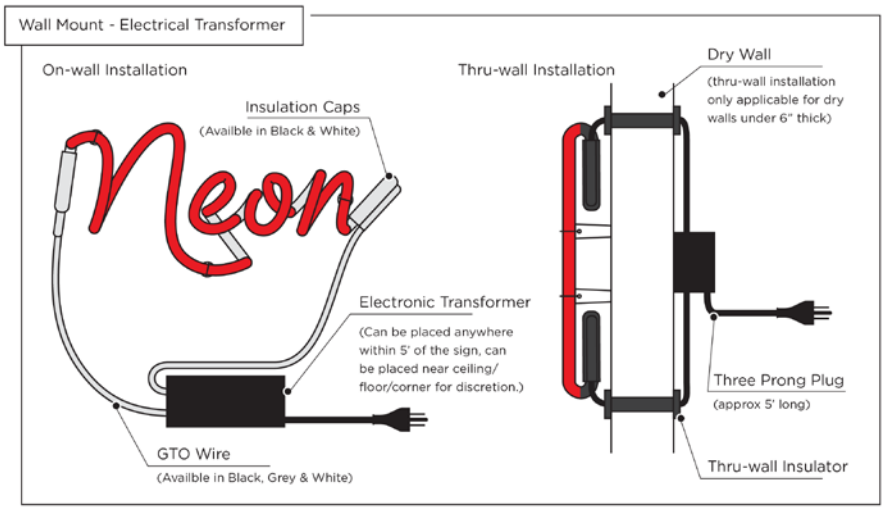

LED

LED is a more recent technology that uses a more complex fabrication process to generate light through electricity. The tubing is made of a flexible material that is much safer than the traditional neon glass tubes.

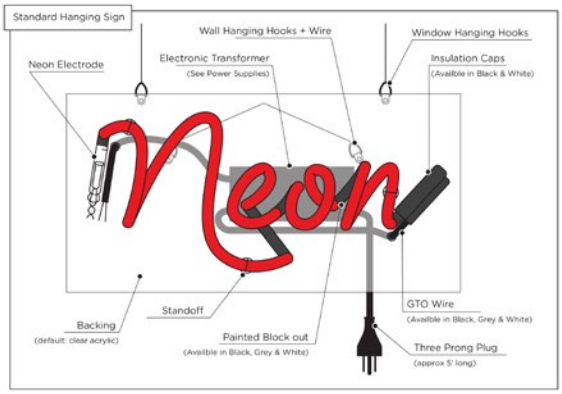

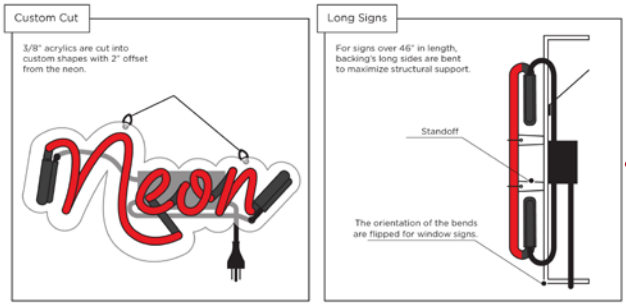

Wall mounted and standard hanging neon signs are often found in restaurants and bars highlighting their preferred vendors and suppliers.

Neon or LED can be mounted a variety of ways depending on your design style and space.

DIGITAL SIGNS

These screens can be incorporated into monument signs or pylon signs, mounted to walls, or they can be free-standing. The biggest benefit of using digital signs are the many programmable options they offer. You can feature the name of your company, special offers, announcements, product images, and even animated videos. Since they work as a screen, they can be manufactured in a variety of different sizes and resolutions. Digital signs are also referred to as electronic messaging center signs or LED message boards. Digital signs are the most modern signage lighting type and are great to capture new customers.

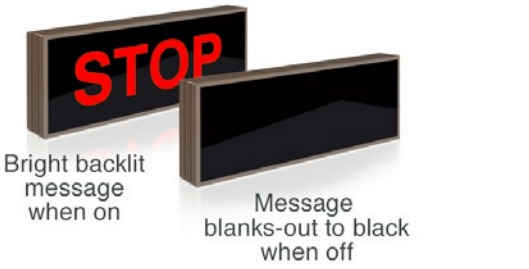

Illuminated traffic controllers direct and keep traffic moving in and around congested traffic areas including drive-in banks, parking facilities, airports, car washes, hospitals, fast food restaurants, highway toll lanes and weigh stations. They are also used to inform and direct pedestrian traffic in airports, civic and sports arenas, shopping malls and mass transit terminals. Available in LED illumination.

LED DIGITAL SIGN

Built with superior materials and crafts-manship; designed to last and withstand the toughest environments. They all come with a 10-year manufactures warranty.

LED DIGITAL BILLBOARDS

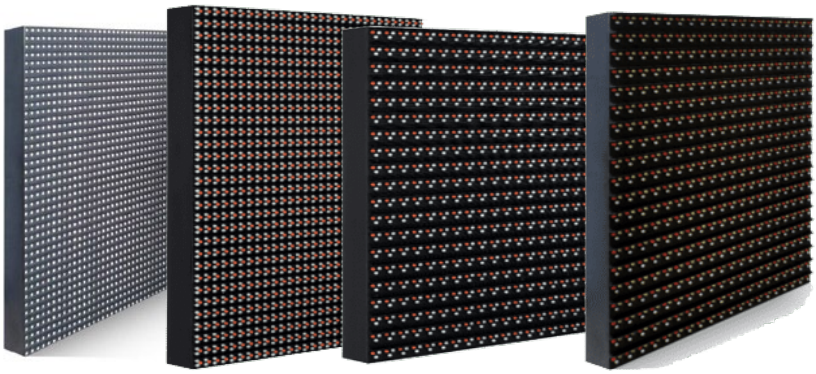

Lightweight and slim billboard design sets new standards for vibrancy, energy-effi-ciency, and reliability.

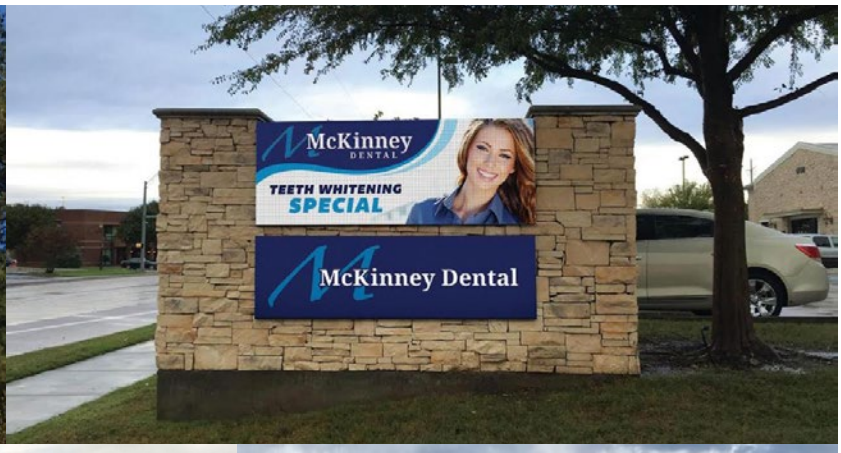

LED DIGITAL MOBILE SIGN

Versatile and portable, allowing you to change the location of your messages as easily as it is to change your message; using our user-friendly software.

Digital displays can come with up to four different electronic message center (EMC) resolutions. All four resolutions, also known as pixel pitches, are based on identically sized, 12” x 12” modules. This common building block allows flexibility as a customer needs or budget changes over time. The EMCs resolution can be increased by simply changing a few parts, the entire sign does not need to be replaced completely.

Lobby Screen Displays

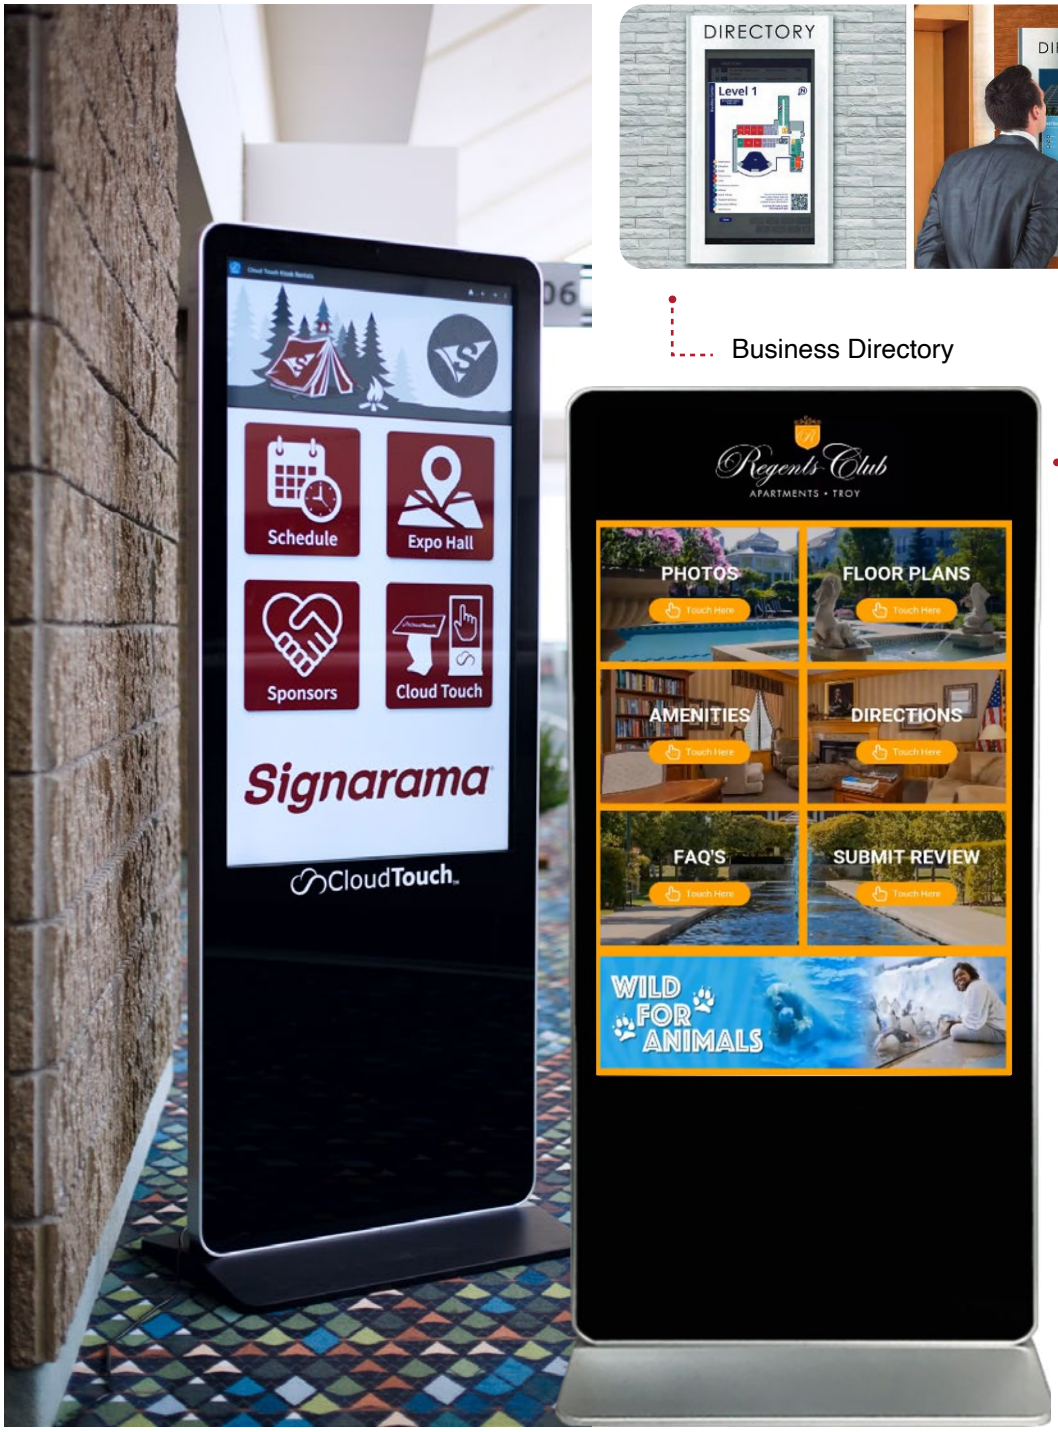

Digital displays can create an interactive customer experience. These displays are great at events, trade shows, lobby's and schools. Ideal for navigation, promo displays or sales, these displays can be customized for your business.

Business Directory

Customized Digital Displays

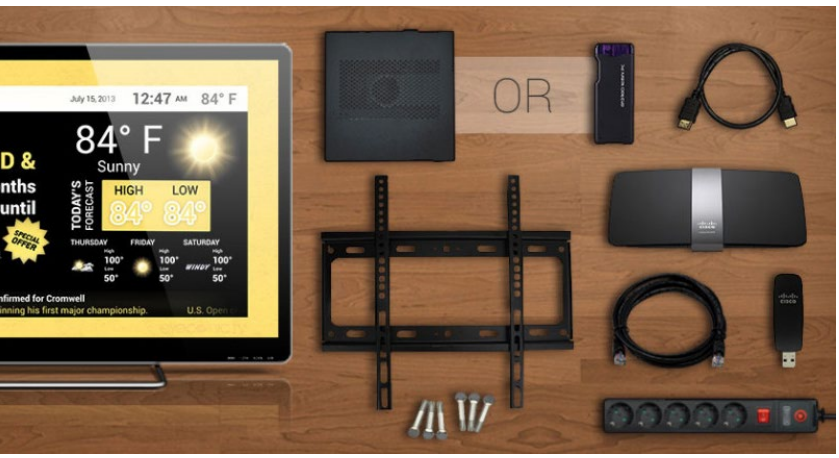

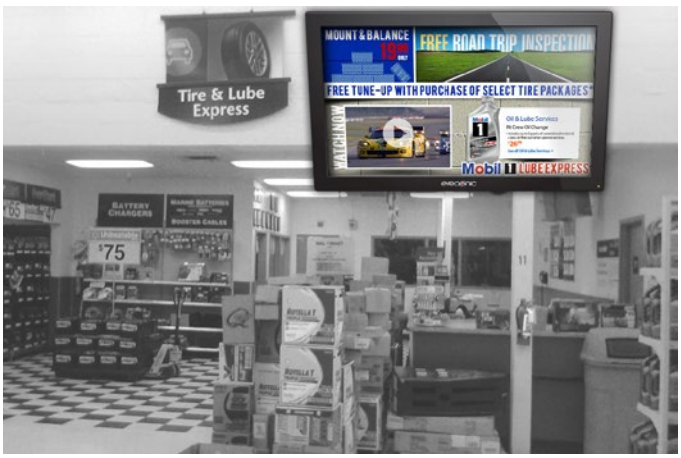

Custom Digital Menu System

Digital menus allow you to take control of your customers' experience with a completely custom interface. A modular digital signage system gives you unparalleled ability & flexibility to promote your menu items to each and every customer. Changing the menu is even easier so you're prepared for any season and any special. Great for restaurants, banks, auto stores and more!

CONSTRUCTION SIGNS

Page 64 - 65

Standalone signs are great for easy visibility and can be used for any and all industries. Common uses for these signs are for roadside signage for a business or even shopping centers with many units represented in the form of a pylon sign or a post and panel sign. Standalone signs such as these are commonly used as part of the exterior signage for a business to help increase brand awareness and are permanently installed to the ground. When an update is needed, sign faces can be redesigned or replaced.

- A pylon sign is a standalone or freestanding sign that is about eight feet in height and is often detached from a building.
- A post and panel sign is ideal for site identification, wayfinding, or directional signage.
- Sign faces, much like the name suggests, is a sign that displays the name of a business but this face is often inserted into a cabinet.

These signs are known for their ability to extend your branding, which has proven to be bold enough to bring in traffic from the roadside – the kind of traffic that translates to increased sales and profitability. As a successful marketing tool, it comes as no surprise why standalone signs such as post and panel and pylon signs are popular; they are large, easily seen from a distance, and often illuminated.

POST & PANEL SIGNS

Post and panel signs serve many purposes and are an economical and versatile sign solution. Post and panel signs are single or double sided between two posts. They can be as large or as tall as you want, and you can configure them to your liking (according to local permitting guidelines). Post and panel signs are among the most popular business signs and are often located in front of businesses or shopping centers and with illumination can be seen any time of day. Use your post and panel sign to inform or advertise to passersby.

TEMPORARY SIGN SOLUTION

Not all post and panel signs are permanent. We can create custom temporary signs that are great for announcing a new real estate project, leasing availability or seasonal promotion. Signarama uses high quality, durable materials so your signs can be reused for different projects in the future.

Aluminum sign systems are designed to offer a strong visual impact in a non-illuminated format. These small to mid-size signs intended for primary and secondary site identification, directional, wayfinding, and informational applications are a great way to get your business noticed and remembered.

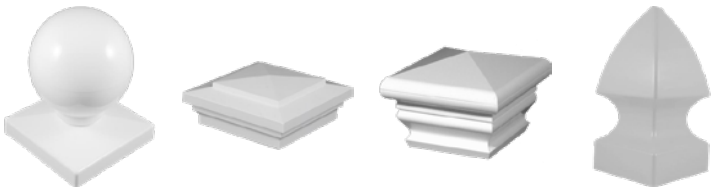

Wordbars allow multiple listings to be organized as individual stacking units that can be easily removed or replaced in the future. A uniquely designed two-part mounting extrusion with removable fasteners allows for quick and easy changes, regardless of size or placement on the sign.

CAP VARIATIONS

HED-100 Aluminum Post System

Single Panel Beveled Frame

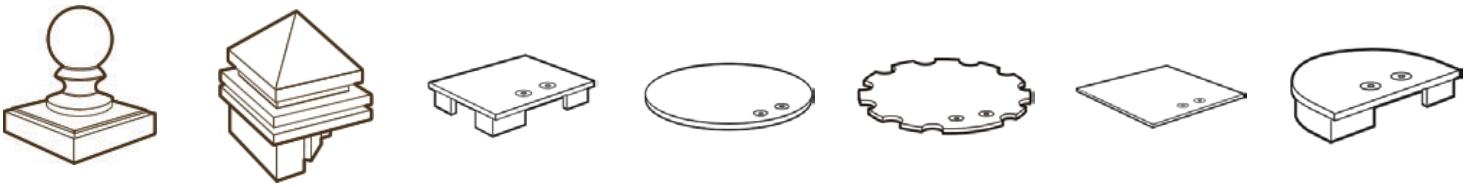

These one panel all aluminum sign systems are designed to offer strong visual impact in a non-illuminated format. They provide small to mid-size signs (up to 48” H x 96” W) and are available in double post, flag, ceiling and wall mount configurations.

The HED-100 post and panel system features a beveled picture style frame that carries a single message panel. The frame assembly slides into slotted mounting posts, with choice of 1/2” or flush reveal. Post caps and concealed locking squares hold the frame securely in place.

Posts available in: (from left to right) 2.25”x 3” Standard, 2” x 3” Radius, 3” Round, 4” Round, 3” Square, 4” Square, and 4” Fluted.

Posts caps available in (from left to right): 3” & 4” Ball Post Cap, 3” & 4” Peaked Cap, 2.25” x 3” Flat Cap, 2” x 3” Radius Flat Cap, 3” & 4” Round Flat Cap, 4” Fluted Flat Cap, 3” & 4” Square Flat Cap.

PYLON SIGNS

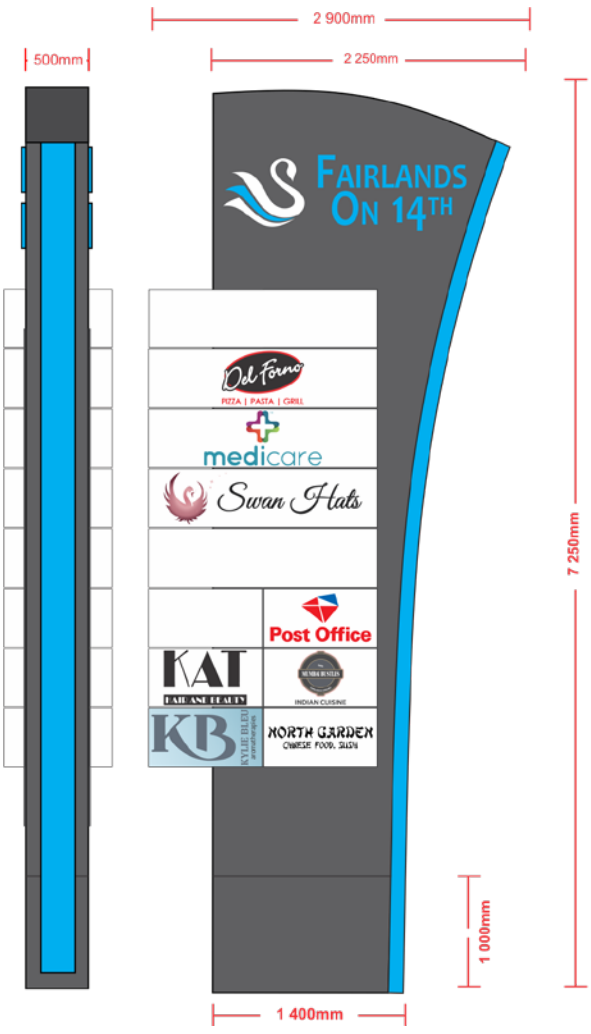

Have you ever driven past a shopping plaza with a large sign listing all the businesses you can find within the shopping center? That's a pylon sign. Often associated with monument signs, pylon signs give your business more "height", standing much taller than monument signs. They can list multiple businesses (if you're a shopping center) or just a business name, and can be both single or double-sided.

Pylon signs are outdoor signs that are freestanding structures that can be used in many types of businesses such as shopping centers, hotels, restaurants, gas stations, car dealerships, industrial complexes, and retail locations.

Pylon signs are a great way to display multiple units on one sign with a unique design and composition.

YARD SIGNS

If you are looking for a highly effective and budget-friendly way to advertise your event, property, political messages, yard sale, construction site, and more, select Signarama's custom yard signs. They work well for any messages you want to display on busy streets as well as parking lots and other high-traffic areas. We also have larger versions of typical yard signs that stand out more and are easier to read from a distance for those driving by.

CELEBRATE

Yard signs are more than for sale signs! We offer different shapes of yard signs so you can custom create a message to fit your needs. Celebrate a birthday or graduation and make that individual feel special on their big day with custom signage.

Select a pre-designed sign from our impressive collection or work with our talented professionals to create your own customized promotional yard signs for your business or organization. Signarama has a wide variety of colors, materials, and fonts to choose from.

STOREFRONT SIGNS

Take advantage of foot traffic and make your business standout through sidewalk signs. Not only are they cost effective, but sidewalk signs can also maximize your brand's visibility. In an area where your business is close to competitors, make your brand standout and engage potential customers that pass by your storefront.

SIGN VARIATIONS

Sidewalk signs by Signarama are portable and easy to include in your advertising no matter what type of business you have. They come in a variety of options and styles such as:

- Dry erase
- A-Frame
- Chalkboard
- Wood
- Interchangeable letter signs

Sidewalk signs are made with durable, outdoor options to make your business stand out regardless of weather. They are also made to be portable and movable, making it easy to transport them to a place with the greatest impact or store them between uses.

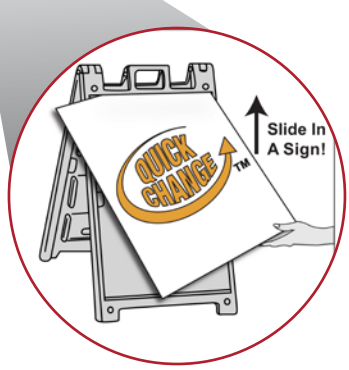

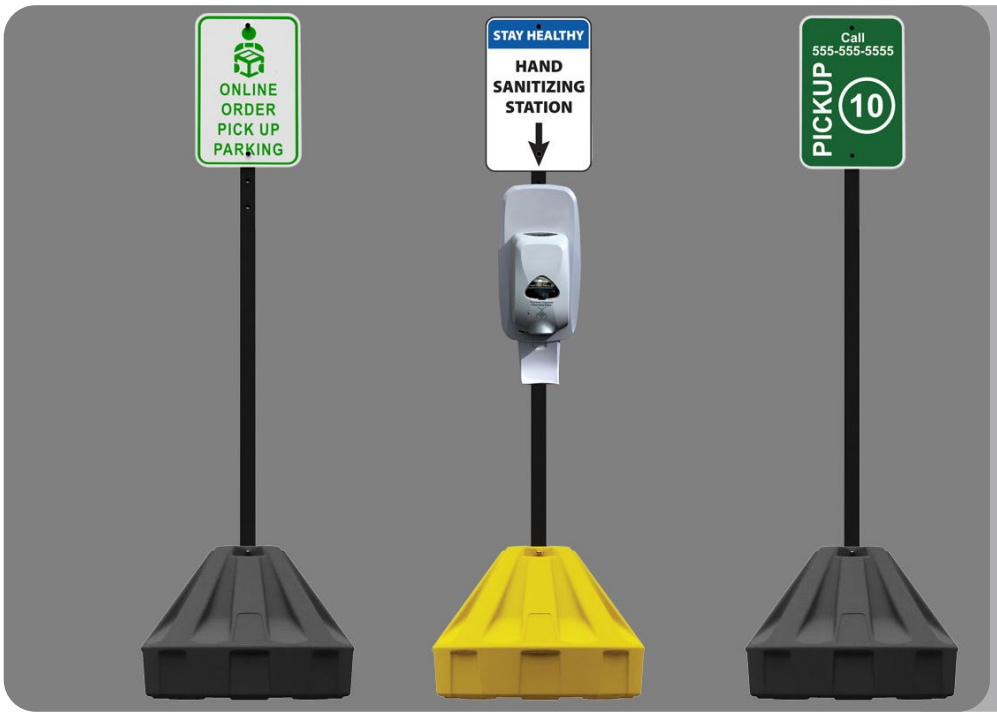

A-Frames come in a variety of styles making it easy to incorporate them into your business. With interchangeable faces, it's easy to promote that next big sale or promotion.

Portable, outdoor signage is a great solution when directing traffic and maintaining order no matter the location. Our signs can be customized for your business and are made of durable materials to withstand the elements.

CONSTRUCTION SIGNS

As a general contractor, architect, or engineer, you understand the importance of the right construction signs. Whether you hope to advertise your specific project or your company as a whole, an outdoor construction sign can serve this purpose. Because they need to be weather-resistant and durable in order to withstand any environmental scenario, they are often printed on light-weight vinyl that is applied to many different substrates and hung from nearby fencing or designed as post and panel signs. These can be expertly designed to include your logo and company colors to maintain a cohesive look throughout your facility, even before construction is complete.

INTERIOR

Floor graphics are a great way to keep your crew and those around you safe. Use them as directional indicators to help workers and visitors navigate the worksite.

EXTERIOR

Before your construction project even begins, you can ensure you are meeting the legal requirements to keep both the public and your employees safe with the appropriate signs. From hazard pop-up banners to a-frames, our signage is designed to keep things running smooth on your site.

Walk-On Slip-Gard™ Floor Signs

Want to increase your visibility and optimize your marketing potential? Signarama's vibrant banners, flags, and displays allow your business or personal event to stand out with a variety of affordable signage options. Cost-effective and portable, our flags, displays, and banners expand your exposure in a variety of eye-catching ways, including:

- Promoting your business or personal events
- Advertising your location
- Announcing special sales or promotions
- Marketing new services
- Concealing your construction site
- Launching new product lines
- Identifying speakers at conferences or other events
- Directing traffic to your trade show booth
- Informing seminar attendees of session times and locations
- Directing concert or event attendees to food or merchandise vendors

Constructed of durable, weather-resistant vinyl, outdoor hanging banners increase visibility, add a touch of elegance to storefronts and stand out on sidewalks and roadways. Our feather flags, popular in car lots, parking lots, and on street corners bring attention to your business and move playfully with the wind. Teardrop flags hang high and display bold graphic images that attract customers.

PROMOTIONAL SIGNAGE

Work with the Signarama professionals to ensure your convention or event-planning business has everything you need to differentiate your brand and your clients' brands. Our team will help you incorporate your branding into all event materials to create a professional look that speaks to the quality your brand stands for. When Signarama's sign experts design and create something, we are working for maximum brand exposure.

PROMOTE YOURSELF

We offer a variety of signage solutions to promote your next event such as floor decals, tradeshow displays, flags, and banners. If you're looking to make an impact in high traffic areas, we can help create the perfect materials for you. Boost your brand at any event by adding a custom tablecloth or throw. These make it easy for attendees to immediately spot your business and attract them to your table or booth.

crystal clear

These must-have displays for conventions, trade shows, expos, and other events provide optimum visibility and can be designed to suit any budget. Our pop-up displays have pre-installed graphics and are the perfect background for an event or booth.

There are dozens of options when it comes to customizing your display tents. From detachable tent walls to ballasts and banners, we can help create the perfect display for your events needs.

An advertising table cover, or trade show tablecloth is a shaped tablecloth that covers not only the top of your table but the sides too, transforming your previously bland or possibly scuffed table into a powerful advertising tool. With a large advertising space, these items are used to raise awareness, generate customer interest and tell those who maybe haven't heard of you, who you are.

Available in a number of different styles, colors, and sizes, these can serve as backdrops and advertising tools for your event or brand. They function as an announcement pre-event or as a display at the event and are easy to pack up and use again next time.

This outdoor FrameWorx display features a mesh banner that will flex in the wind without ripping.

A-Frame Kit | This display pairs a wide vinyl banner with an aluminum A-frame built to handle outdoor conditions.

A fun and whimsical way to draw attention to indoor and outdoor spaces, flags add another dimension to your marketing initiatives. Creating additional space for bold graphics, logos, and images, Signarama's teardrop and feather flags wave the customers your way! Single or double-sided, these flags are designed to move with the wind, creating an elegant motion that naturally catches the eye.

BANNERS

Want to increase your brand visibility and optimize your marketing potential at any event? Signarama's vibrant banners allow your store, shop, or office to stand out with a variety of affordable signage options. Cost-effective and portable, our flags and banners expand your exposure in a variety of eye-catching ways, including:

- Promoting personal and business events
- Advertising your location
- Announcing special sales or promotions
- Marketing new services
- Concealing your construction site
- Launching new product lines
- Identifying speakers at conferences
- Directing traffic to your tradeshow booth
- Informing seminar attendees of session times and locations

TABLETOP RETRACTOR

Retractable banners made to order can be used to promote your presence at tradeshows, conferences, events, farmers markets, and more. Your event setup (and take down) will just take a few minutes thanks to their simple assembly and accompanying carrying case. Use your unique banner to share a QR code, special deals, or other message of your choosing.

EASY SETUP & TAKE-DOWN

Roll-up banners are available in a variety of configurations for your needs and budget, pre-assembled with everything you need (stand, banner, and case). These banners are a fantastic method to promote your brand in busy environments and are built for frequent and extended indoor use. To prevent damage, pull up from the center of your banner when assembling with both hands. When you're finished, just roll up your banner, put it in its case, and store it until your next event.

Bring attention to your organization with custom parade banners.

Elevate your message with three-dimensional hanging banners.

Transform any event barricade into a prime advertising opportunity, and maximize your impact by featuring a different design on each side.

INTERIOR & EXTERIOR VINYL GRAPHICS

WINDOW DECALS & GRAPHICS

Page 86 - 87

WALL GRAPHICS & MURALS

Page 88 - 91

READY TO APPLY

Page 92 - 93

FLOOR GRAPHICS

Page 94 - 95

Give your storefront a new, edgy look with frosted or etched glass or window perfs that catch the attention of both foot and car traffic. Constructed of vinyl with tiny holes, window perforations offer the impact of full-color imaging on one-way vision vinyl that you can see through but doesn't compromise your natural light. The look of frosted glass on your storefront or interior windows and doors can create an upscale etched glass effect.

- Wall graphics make a big splash on interior walls with prominent messages that reinforce your brand's image.
- Wall graphics can depict your company's mission statement and history or welcome patients and clients into your reception and waiting areas.
- Wall murals will transform empty areas and make them stand out with three-dimensional sections that draw a lot of attention and make for interesting conversation pieces.

Ready to apply graphics offer a lot of versatility as they look polished and professional but allow for the flexibility to move to a different area for better exposure.

WINDOW DECALS & GRAPHICS

Looking for a way to advertise your business and stand out from the competition but don't want to break the bank? Signarama vinyl window decals and graphics can draw attention to your business by artistically displaying your logo or messages to attract foot traffic and grab the attention of motorists.

APPLICATION IDEAS

An affordable, customizable solution for many types of businesses, window decals and graphics made from durable vinyl are professionally designed and printed for quality that lasts. Because they aren't permanently installed, you can remove them when a promotion is over or when you are ready for a change. Window decals and graphics can:

- Make your storefront design pop
- Advertise specials and sales
- Create a buzz about new products or brands
- Introduce new services
- Communicate special event details
- Create privacy for your storefront or office

OFFICE SOLUTIONS

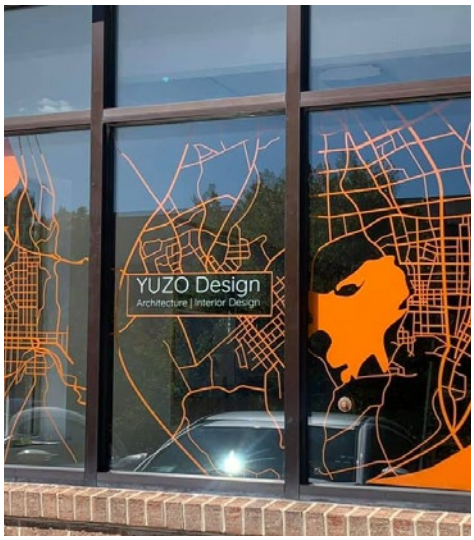

Window frosting adds sophistication to interior and exterior windows and glass walls. Often used to create privacy in stores or office suites, window frosting can include text and images, as well as an etched glass look that die-cut lettering creates.

STOREFRONT

Window decals are affordable, which makes them a great choice for storefront advertising. Window promotion displays have a low cost per impression compared to other types of signage. Plus, window decals don't require city permits, eliminating the time and money necessary to get them. Window decals would serve well to promote discounts, new product releases, and your brand identity.

EDUCATION

An original vinyl design is a great opportunity to garner the attention of passersby and get people interested in your location. Your design can highlight what you do in a creative way, and help you show off your school spirit. Showcase your school mascot or school name in a unique way. Window decals and graphics elevate any empty space and can be used inside or out.

WALL GRAPHICS & MURALS

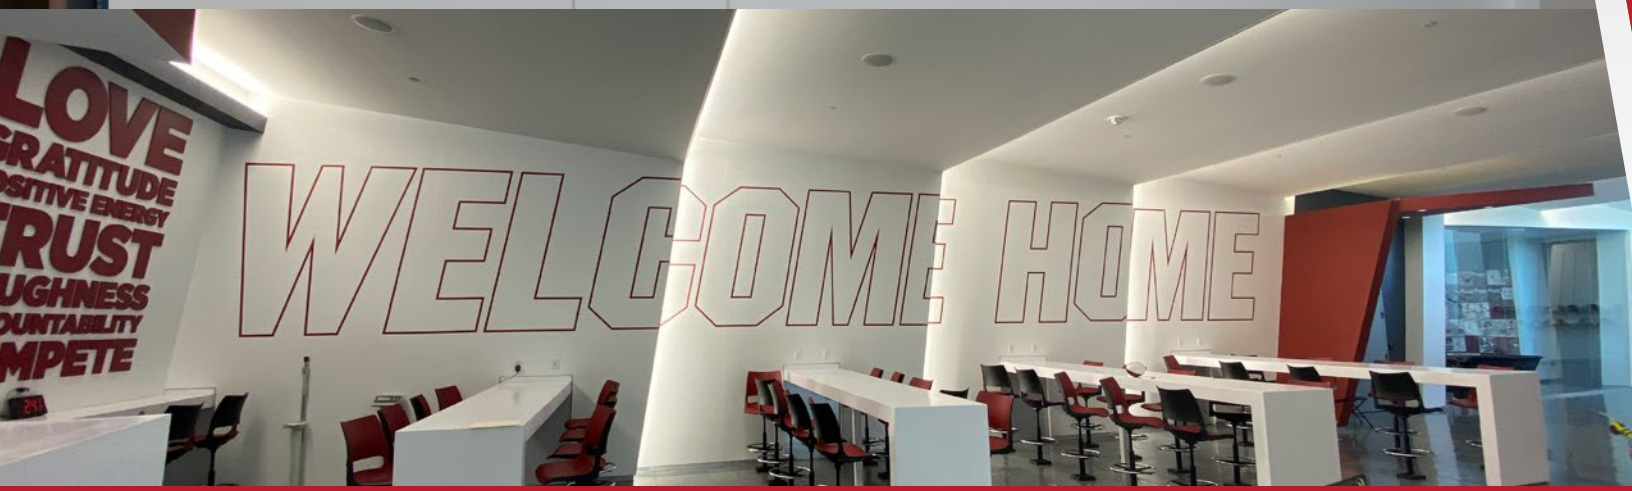

Say something big and create larger than life visuals with wall graphics and murals that reinforce your brand's message. Empty walls in stores and offices come alive with personality that draws customers to your space. Add interest to entrances, lobbies, and hallways with full-color dynamic images that market your product. Warm up waiting rooms and reception areas with messages that engage your clients, patients, and customers and welcomes them into your space. Motivate and inspire students in your school or workout enthusiasts in your gym.

APPLICATION IDEAS

Signarama wall graphics and murals are designed to complement your brand and fit your budget. Vinyl wall decals and vinyl lettering can be an inexpensive way to say a lot about your business such as:

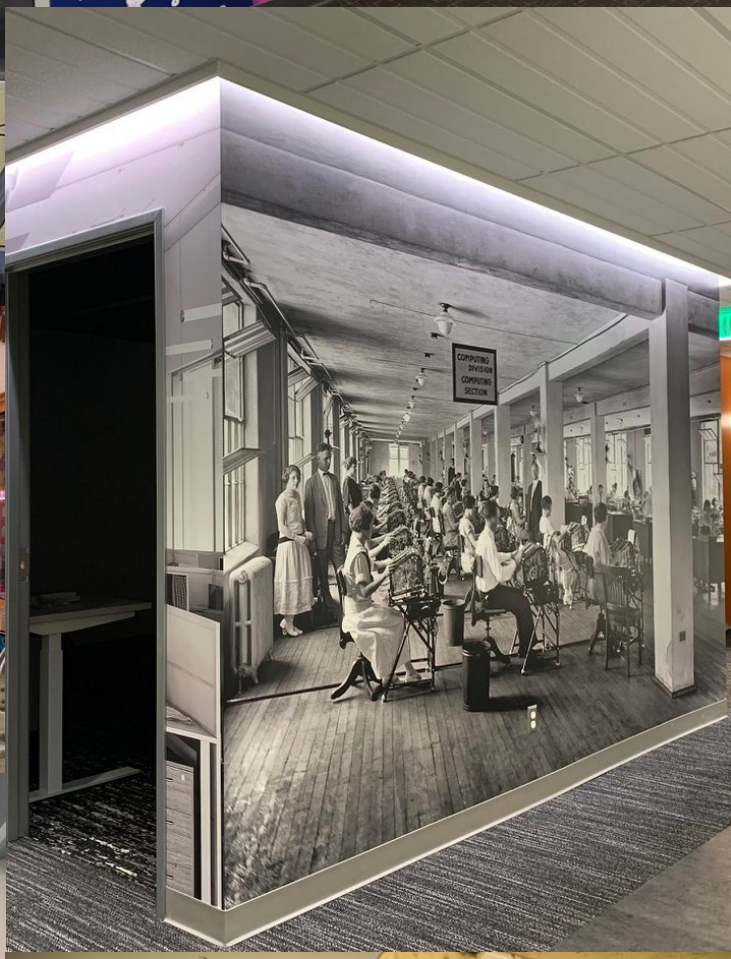

- Tell your company's story
- Share company accomplishments
- Convey your brand's mission statement
- Add interior design accents
- Market product lines
- Advertise your services

FROM DESIGN TO COMPLETION

With numerous fonts, color, and image options to consider, our expert design and installation team can take you from concept to WOW. With the freedom to create whatever you want, our art and graphic design team can help you create wall graphics and murals that will make a lasting impression and help to grow your business.

WALL SECTION DIMENSIONS

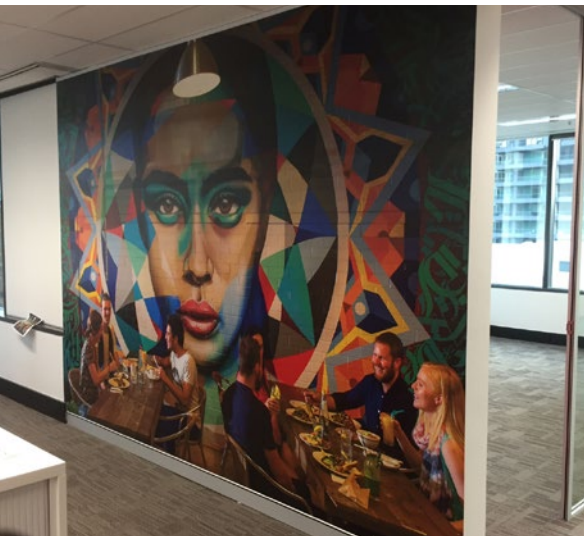

WALL SECTION RENDERING

WALL SECTION

MURALS

Wall graphics and murals can make a huge impact in various spaces, including homes and business locations that want customized decor, businesses that want to enhance their brand, and businesses that would like to welcome and engage clients. Professional designs that are expertly installed will help leave a lasting impression with those in and out of your space.

TIMELINES

Highlight your businesses growth and accomplishments with a custom designed timeline mural. Timelines are great for non-profits, office locations, and any business looking to share their history with visitors and staff. These murals are a work of art while also educating those around on your business from start to present.

READY TO APPLY

Adding unique interior design accents to walls, windows, and doors in your home or business? Signarama's ready to apply vinyl lettering, graphics, and decals provide all of the tools you need to personalize any space with fun or poignant messaging and inspirational lifestyle quotes. Give your storefront a refreshed, updated image, or advertise various services, as well as promote top-selling brands and products.

VINYL LETTERING & DECALS

Vinyl lettering, decals, and graphics pack a punch in vibrant colors and bold fonts giving your business larger than life visibility that signals foot and car traffic to your shop, restaurant, or office.

STICKERS

Stickers are a true marketing powerhouse – they can be used for custom packaging, labeling, and especially marketing campaigns with a goal to leave a lasting impression on your customers. They come in a variety of ways from adhesive-backed paper to custom designed vinyl stickers and are very low-cost, yet leave a lasting impression.

Ready to apply vinyl lettering, decals, and graphics are durable, waterproof and residue-free, for affordable, professional-looking, low maintenance signage.

TOOLS YOU'LL NEED TO GET STARTED

FLOOR GRAPHICS

Looking for a marketing tool that hits the ground running? Have you considered floor graphics? Popular at trade shows, event venues, as well as in grocery stores, restaurants, and other retail outlets, floor decals get your brand's message noticed. With companies competing for consumers' attention at eye-level and higher, floors are often overlooked as advertising spaces and are ideal for bold, colorful signage.

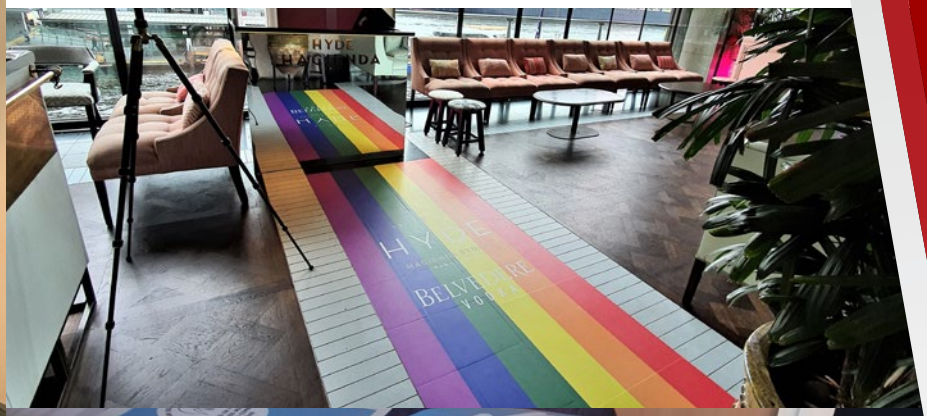

INTERIOR

Useful indoors as an eye-catching way to advertise products in supermarkets and at big-box retailers, floor graphics can also make an emphatic impact on brand recognition in car dealerships, marine supply companies, and RV dealerships. These colorful decals can direct people at trade shows, leading them to your booth with directional decals that contain product teasers.

EXTERIOR

Durable enough to withstand harsh weather, floor graphics can also be used outdoors to expand your brand's message, or as a way-finding tool. On sidewalks, walkways, and crosswalks, floor decals can promote university and college sporting events, advertise area hangouts and warn students to look up from their mobile devices and pay attention to traffic or an obstacle on the walkway.

EDUCATION |

Vinyl floor graphics are a great design trend to bring new life to your floors. Utilize them as a wayfinding tool to help students navigate their surroundings, or incorporate your mascot throughout your building.

EVENT SIGNAGE

Floor graphics are great for any event or conference to help guide people to their destination. Highlight your business with custom designed graphics featuring your logo and brand colors.

ADA ENGRAVED & SAFETY SIGNAGE

ADA COMPLIANT SIGNAGE

Page 98 - 102

OSHA & SAFETY SIGNS

Page 103

The Americans with Disabilities Act (ADA) and the Occupational Safety and Health Administration (OSHA) require certain signs to be on display in every business for the safety and well-being of all who may use that space. In order to comply, it is important to understand the function and importance of these safety and ADA signs. In fact, understanding these signs can help you make your business more inclusive and safer for all of your employees and guests as well as your customers or clients.

Beyond aesthetic, some signs have a much more important role in a business. There are certain laws and regulations that need to be followed, which directly affect some of your customers. For instance, an ADA sign ensures that all persons, no matter if they have a physical disability, are treated fairly and have equal access. ADA signs are required so that your business is accessible for all, regardless of their specific need, i.e., from wheelchair accessibility to braille for the visually impaired.

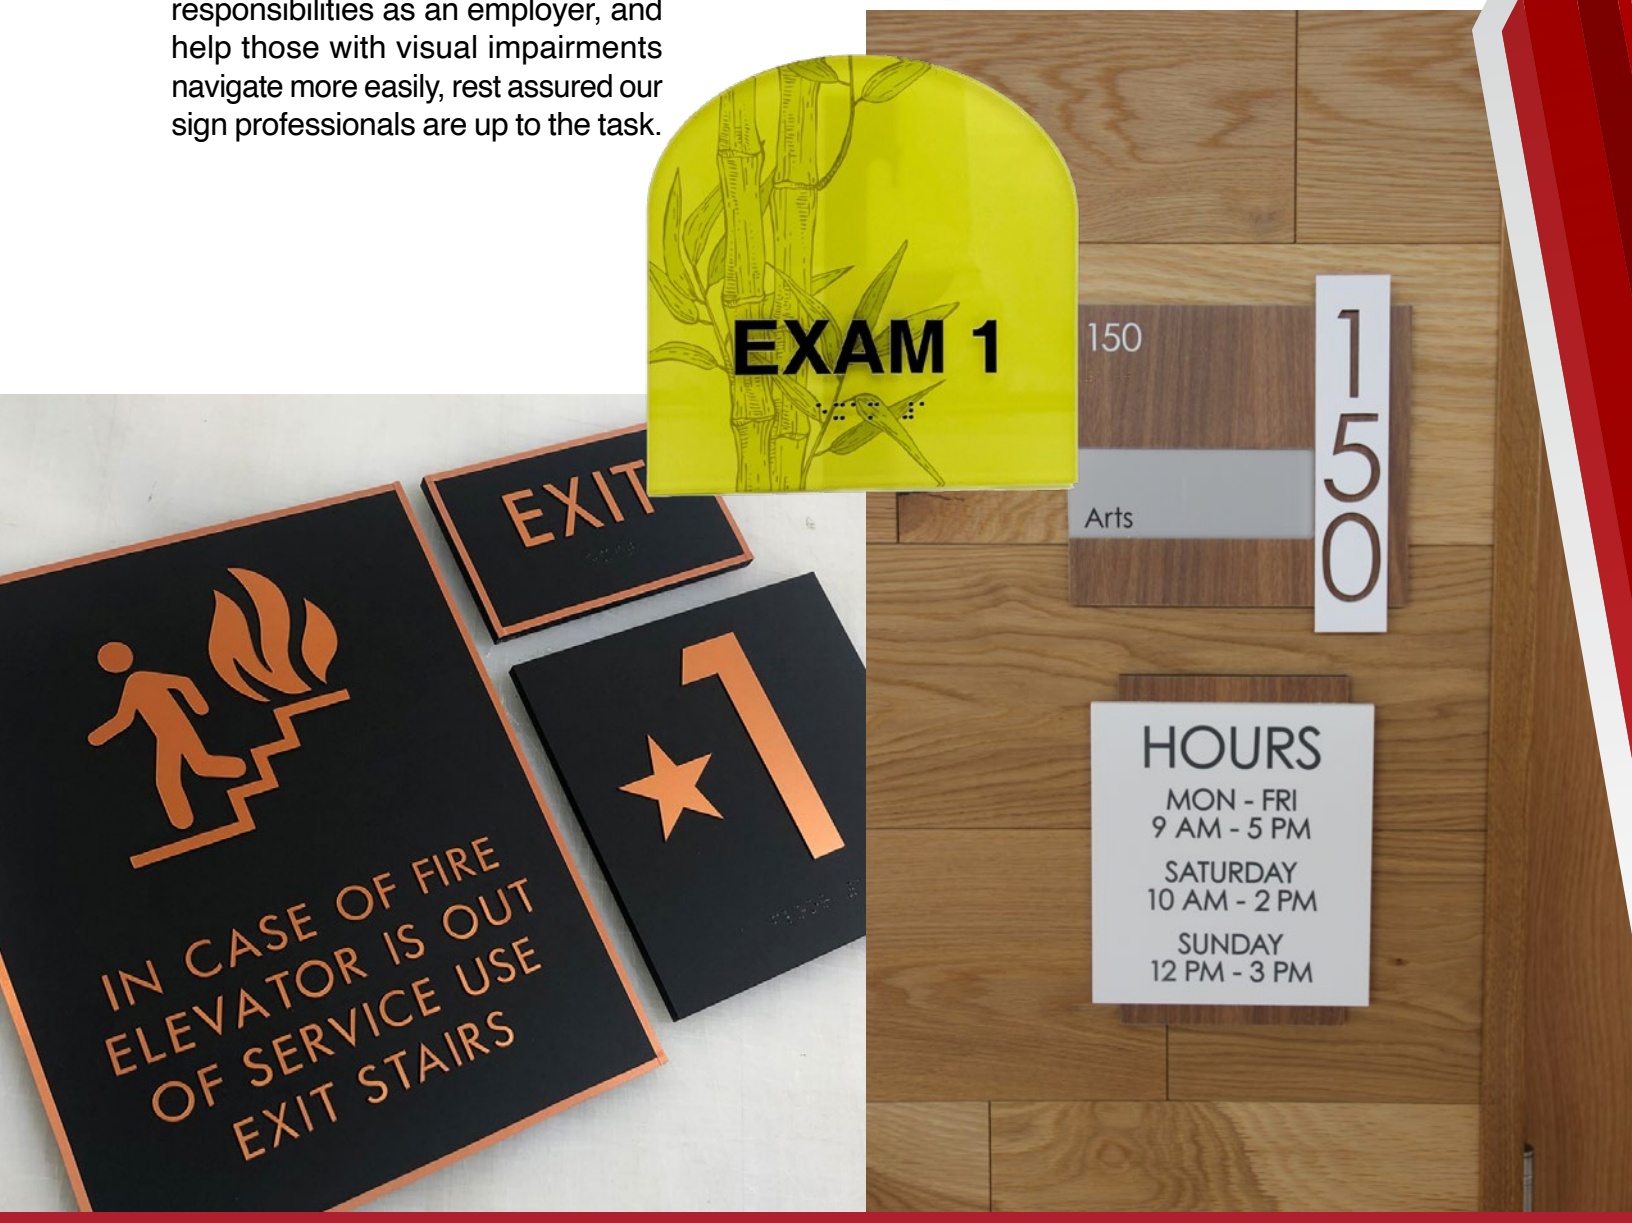

There are a lot of safety signs that are required to maintain compliance with OSHA regulations.

ADA COMPLIANT

When it comes to signage that needs to be ADA compliant—including room signs, restroom signs, and other signage that aids those with a disability—you can trust that our team follows federal guidelines to the letter. We work alongside you to meet state and local requirements as well. If you're looking for ADA-compliant signage that will get your building up to code, ensure you're fulfilling your responsibilities as an employer, and help those with visual impairments navigate more easily, rest assured our sign professionals are up to the task.

WHAT MAKES IT ADA?

To adhere to ADA guidelines, a sign should use an ADA-compliant font—specifically a sans serif font that's as plain as possible. Typefaces should be easy to read. Examples of acceptable sans serif fonts include Verdana, Helvetica, and Futura. Additionally, characters on the sign should not be italic, script, oblique, highly decorative, or in any other unusual form.

PATIENT FOCUSED SIGNAGE

Our Patient Focused Signage features unique retractable, customizable tabs used to effectively communicate alerts, such as allergies, fall risks, visitor restrictions or other medical precautions. With ADA Compliant capabilities, these signs unite room identification with vital patient information as well as isolation and precautions inserts. Available in two (2) styles – acrylic or our aluminum HID design.

ALMA SERIES

Two layers with stainless steel cap detail.
Contemporary look for any space.

BAY SERIES

Attractive wave accent detail.
Great for hotels, senior living facilities, and more!

BRIDGE SERIES

Accent arch detail.
Excellent option for schools and universities.

HAVEN SERIES

Custom 2nd surface and optional laser-etched logo.
Ideal for hospitals and health care facilities.

LELAND SERIES

Arch with optional logo placement.
Soft and smooth appearance.

MARSHALL SERIES

Curve accent detail.
Fits well in clinics and living communities.

ADA ICON OPTIONS

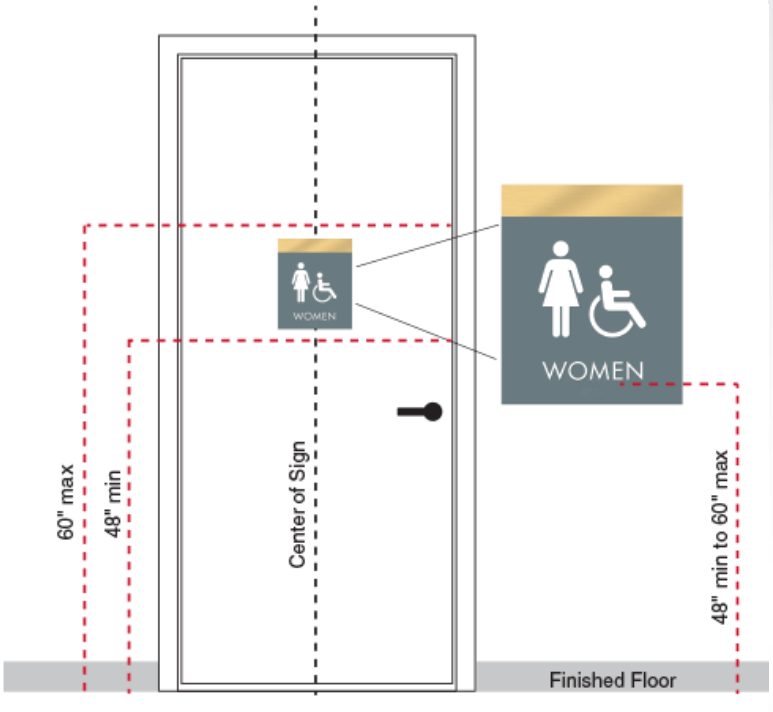

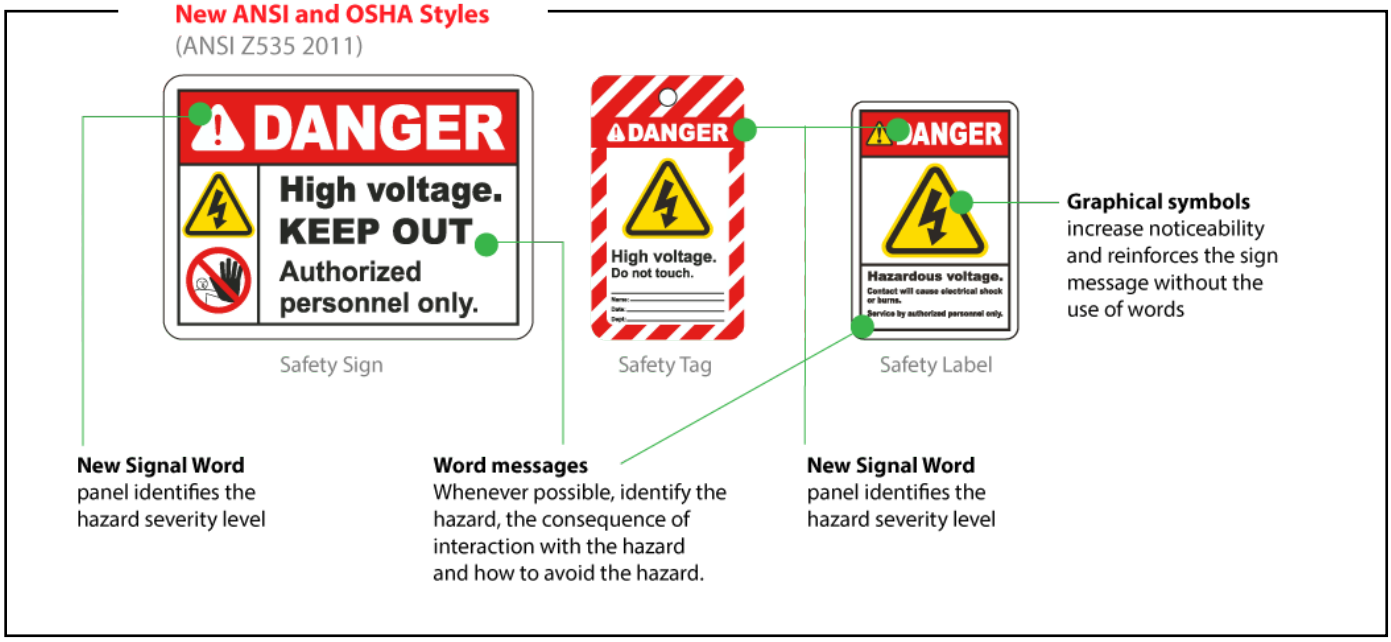

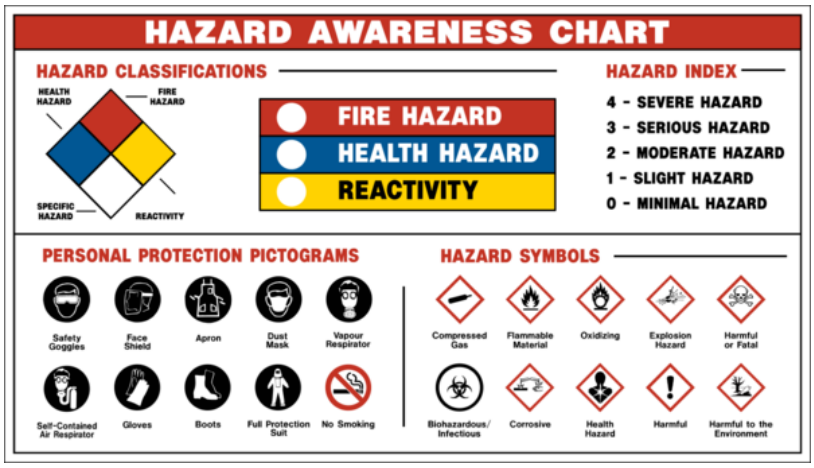

Having braille elements on ADA signage allows those who are blind or have reduced vision to navigate a building easily. It provides them with important information, such as the location of restrooms. Individuals can use the braille to confirm they're where they're meant to be. Further, the use of braille on displays helps foster a more inclusive and welcoming atmosphere.

Safety instruction signs must be used where there is a need for general instructions and suggestions relative to safety measures. OSHA specifies that safety instruction signs must have a white background, green panel and white letters. Any letters used on the white background must be black.

VEHICLE GRAPHICS

CAR & TRUCK WRAPS

Page 106 - 107

BOAT GRAPHICS

Page 108 - 109

CUSTOM LETTERING & DECALS

Page 110 - 111

VEHICLE MAGNETS

Page 112 - 113

When your business has a moving billboard - be it cars, vans, trucks, or boats - Signarama can help you design attention-grabbing vehicle graphics. Your vehicles will not only look uniform, they will spread the relevant information you need to bring in new customers. These are considered some of the most cost-effective advertising tactics as your vehicles are showcasing your brand 24/7 on every road they travel on. Whether you are in the plumbing or construction industry, an insurance agent, a moving company, or any other business, if you are not advertising your business on your vehicle, you are missing out on a great opportunity to increase your brand awareness while on the road.

Consider these options for your company vehicles:

- Car & Truck Wraps
- Boat Graphics
- Custom Lettering & Decals
- Vehicle Magnets

At Signarama, we use the very best materials for your vehicle graphics project, whether it's one truck or one hundred trucks because we know that our clients are looking for vehicle graphics that will stand up to the elements. Your company vehicles will be creating awareness of your brand and its products or services for many years. In fact, the cost per impression of vehicle graphics is lower than any other form of advertising, making them one of the best marketing investments for your business.

CAR & TRUCK WRAPS

Ready to upgrade your vehicle's appearance? Vinyl wrapping is an increasingly popular alternative to painting and offers a variety of colors and finishes.

OVERVIEW

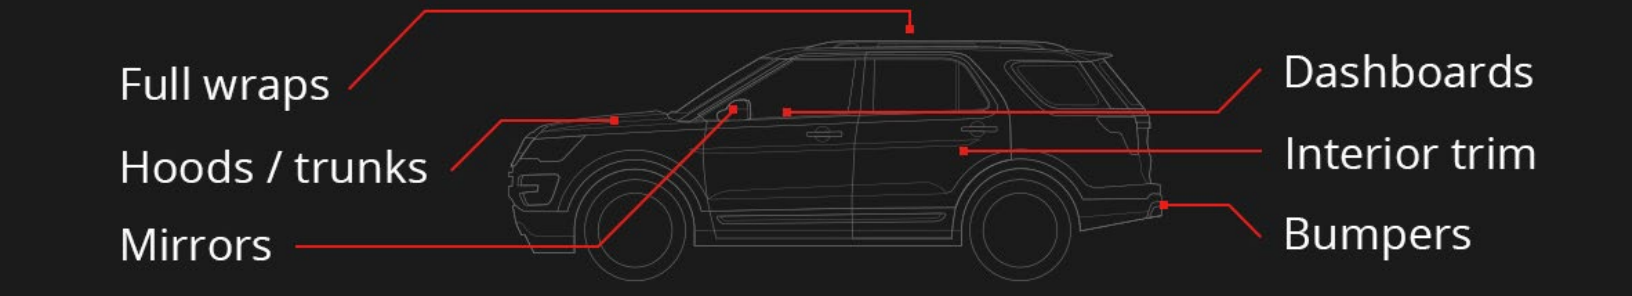

A wrap can last a number of years depending on factors like color, quality, weather, sun exposure and how well you take care of it. Wrapping your car with vinyl lends itself to a rainbow of design possibilities – unicolour in glossy or matte finish, chrome metallic, gradient, graphics, faux leather, your company logo, or just about anything your imagination dreams up.

WHAT CAN I WRAP?

PROFESSIONAL INSTALLERS

A Signarama sign expert will help you design your car or truck wrap, print it using only the best materials, and then properly install it on as many vehicles as you need. These graphics can be custom-made and are sized for each vehicle so that it fits perfectly. We recommend the design is branded in line with all of your other business signage to communicate a clear message about your brand.

BOAT GRAPHICS

Vinyl boat wraps are an economical alternative to expensive hull painting, interior fiberglass work and spray cosmetic upgrades. Boat wraps are vinyl sheets that adhere to the surface of your water vessel. You can choose from a range of colors, textures and graphics to transform your entire boat or enhance different sections for a new look. Vinyl film gives a similar image to fresh paint, but with more benefits and an economical cost. They're durable and built to last!

FULL

A full exterior vinyl wrap protects your entire hull. It functions like marine paint but without the extra cost. You can opt for solid colors, as well as graphics and logo designs to fit whatever vibe you're going for. Advertise your business or simply add a color that represents your passion.

PARTIAL

You don't always have to cover your whole boat. Instead, you may be looking to add a few accents or partial wrapping. Leave a section of the ship how it is, then add a couple of eye-popping graphics to the side of your vessel.

HOW MUCH VINYL TO WRAP MY BOAT?

MINIMUM 10-25 YARDS

Speed Boat Wrap

Many speed boat owners are looking for stylish vinyl wraps with color changing properties.

MINIMUM 10-25 YARDS

Sail Boat Wrap

While sailboats are already eye-catching in their own right, vinyl wraps are a good way to take their aesthetic to the next level.

MINIMUM 100+ YARDS

Commercial Boat Wrap

If you own commercial boat or marine craft, you know that appearance plays a huge role in your success.

MINIMUM 50 YARDS

Yacht Wrap

As you can imagine, yacht wraps are a slightly bigger job but can be accomplished with around two 25 yard rolls at a maximum.

VINYL DECALS

CUSTOM LETTERING & DECALS

Did you know that most of the graphics you see on vehicles are vinyl and not paint? Vinyl lettering and decals are not only affordable and customizable, but they are also versatile and durable. They allow you to put your marketing message on the move, so every appointment or delivery becomes an opportunity to share your brand with customers.

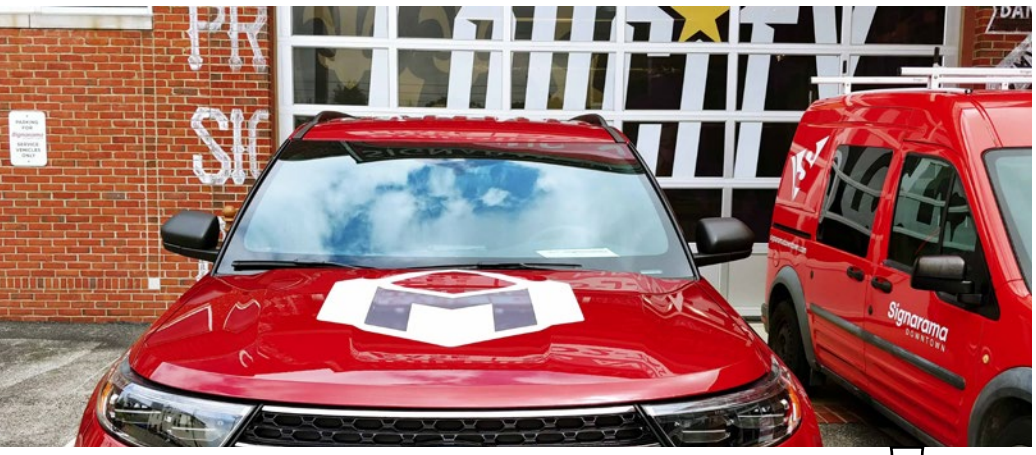

DECALS FOR MARKETING

Custom lettering and decals are highly beneficial for a number of reasons. They provide mass exposure for your brand at an affordable cost. Custom lettering and decals are great for commercial vehicles, personally owned cars, and even utility trucks. They allow you to either advertise for your small business or change up your car when you feel it needs some sprucing up.

The Transportation Advertising Council, a division of the Outdoor Advertising Association of America (OAAA), found that vehicle advertisements generate between 30,000 to 70,000 daily impressions. This makes them, by far, more effective and affordable than newspaper advertisements and billboards. There is no doubt that there is no better way to make a big impact on a low budget. Regardless of your industry, we are confident that you will find your business benefits from custom lettering and custom decals on your vehicle or fleet of vehicles.

DECAL

Advertising on your vehicle does not have to be a full car wrap. Some simpler, understated lettering can absolutely do the trick. In cases where you may need to share a location or telephone number, potential customers on highways and streets can know what your business is and who to call.

VEHICLE MAGNETS

Outfit your vehicles with personalized car magnets for quick and effective on-the-go marketing. Durable and weather-resistant, our magnetic car signs can get your business name and logo noticed by pedestrians and other drivers – and can help you make a strong first impression.

APPLICATION

Car magnets will stick on any panel of your car that is made from that metallic material. Some high-end or specialty vehicles utilize synthetic materials or even carbon fiber which is not magnetic and will not work with a magnet. Many cars utilize a lot of plastic for parts such as bumpers. If you're wanting to apply something in those areas, check out our custom stickers!

By adding some general information, you are increasing your chances of being seen for a fraction of the price of a newspaper or bus stop ad. The best part? They have proven to be way more effective. In fact, studies have shown that they are more effective than billboards.

Custom designed for your business.

ENVIRONMENTAL BRANDING

Page 127

Signage for your business can be a daunting aspect when you're starting a company. Signarama doesn't just make the signs you need for your business, we offer many other services to help with your branding initiatives as well.

Our expert creative team can help you design an impactful logo, make sure your current logo is optimally formatted for everything from business cards to large-format printing projects such as floor decals and vehicle wraps, and so much more. Is your logo memorable, is it easy to read and does it pop? If it's time for an updated logo, you can count on Signarama. In addition to design, Signarama can assist you with every aspect of your sign project, including:

- Plans and Permits
- Project Maintenance and Management
- Installation
- Lighting

As your signage and branding partner, our Signarama sign experts will work with you to ensure your experience meets your expectations, staying on schedule and on budget.

The Americans with Disabilities Act (ADA) mandates that specific signs be displayed in every business for the safety and well-being of all who may enter the space. In some circumstances, these requirements may extend to companies in the business services sector. Nearly every business needs at least one of the variety of services provided by the industry and ADA signs ensure that your establishment is accessible to any who may visit your office.

ADA signage should be printed in high contrast color to enhance its visibility, even in dim lighting. Additionally, ADA signs are expected to ensure that all persons, regardless of whether they have a physical disability, are treated fairly, and have equal access to your business or facility.

Examples of ADA signage can include identifiers for restrooms, wheelchair accessible spaces, emergency exits, and elevators. For those with visual impairments to be able to navigate your location, these signs must also incorporate braille in order to be ADA compliant.

These signs must adhere to specific laws. Therefore, it's critical that they are created by experts who are well-versed with these rules and regulations. Our sign experts are well versed in the printing process for ADA signage to ensure that they are printed correctly and accurately.

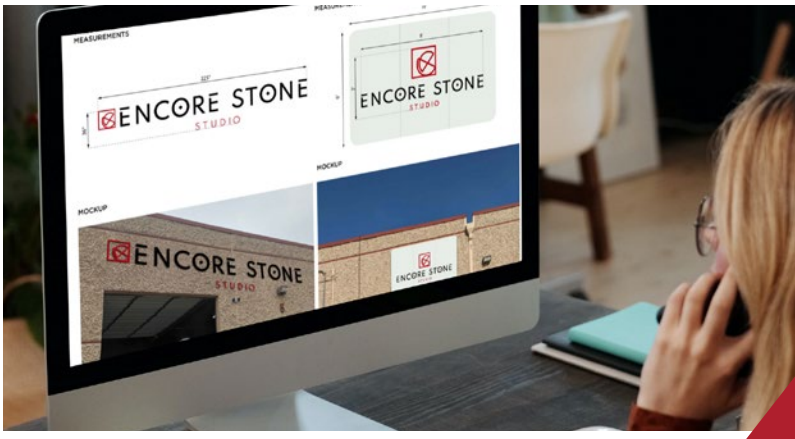

High-quality marketing materials are a necessity for every business. The foundation of these products begins with the concept and design. Our trained designers at Signarama are here to make sure that these products align with your brand and messaging while giving you peace of mind in knowing that they are being professionally designed.

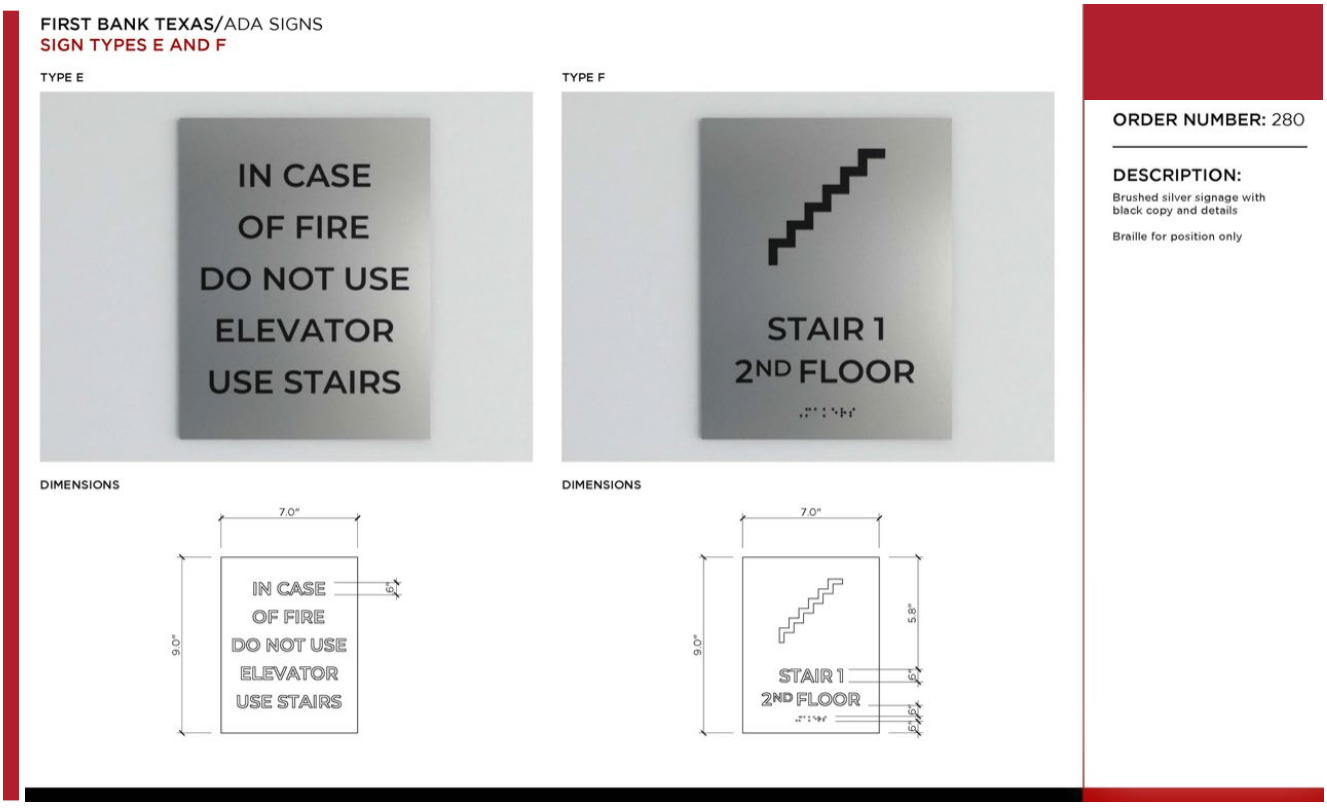

Our team will collaborate with you every step of the way to ensure that your signage achieves the design objectives for your business. We offer interior and exterior signage solutions to help bring your brand to life and draw attention to your business, whether you already have a concept in mind or you're starting from scratch.

Signarama can also provide you with customized marketing materials to promote your brand. From business cards and stationery to brochures and presentation folders, we can bring your brand to life with premium marketing materials.

Regardless of your business goals, Signarama's skilled team of designers is here to ensure that your designs meet your exact specifications and needs to enhance your image and grow your business.

The installation process is just as important as the conceptualization and design phases of a sign project. At Signarama, we want to see your project through from concept to completion, and one of the final steps in the process is sign installation.

For over 35 years, our team has mastered the installation process with a “measure twice, cut once” mentality. We want your signs to work for you to grow your business and drive traffic to your location. A major factor in this is proper installation of your sign.

We can handle the permitting process to ensure that your signage complies with local regulations and is authorized by your city. This is often the longest step in the sign installation process as we work with the city to ensure proper paperwork is completed. By working together, we can provide peace of mind along the journey.

At Signarama, we’re your one-stop-shop for all your signage needs, including installation. By working with you every step of the way, we can minimize costs and maximize efficiency to ensure that your signs are designed to meet your exact specifications.

At Signarama, we work hard so your signage is designed an installed with the highest quality materials. This ensures that your signs look their best year-over-year and continues to help grow your business and enhance your reputation.

Eventually, all types of signage, whether they be channel letters, lighted signs, wall graphics, and more, require extra attention to regain their day-one look. When that happens, you can trust our sign experts to repair your signage and have it looking like new. We specialize in color restoration, vinyl removal, channel letter maintenance, and so much more.

While we manufacture all of our signs with high-quality materials, normal wear and tear is typical and can be easily serviced. Other times, unforeseen weather or other related damage can cause the need for full-blown repairs. Either way, our team is here to ensure that your signage is back up and running at its full capacity, as quickly as possible.

From service to repair, trust Signarama with your signage maintenance and repairs. We are here to transform your business and help drive new customers to your location with eye-catching signage.

There are many things to think about when designing signs for your business, but none is more crucial than determining whether your county, city, or municipality need a permit. We help determine what requirements and limits your location may have when it comes to your signage. Your cities permitting reflects the type and size of any sign being installed. Based on the information they provide we can better determine what signage is going to be a good fit for your location.

Getting the necessary permits is the next step in the process after your sign design is finished. A sign's installation and construction are authorized by local permits. The requirements for construction permits differ according on the city and county, but our sign professionals will help you get the necessary paperwork to keep your project on schedule.

Ordinances may also demand electrical (sign illumination) permissions in addition to construction permits. Numerous permits are frequently needed for a single project. The cost of a permit will also differ according to the size of the finished project. It should be noted that in some areas, updating signs necessitates a permit. Therefore, we advise that before beginning a project design, you speak with your local sign expert and government body to understand the guidelines of your area.

When your marketing plan includes customized high-impact, large-format printing, Signarama's sign experts will help create the ideal visuals for your business or organization. Our full-color, large-format digital printers ensure your message is vivid and precise every single time. Whether you are looking to print large banners, window decals, vehicle wraps or wall murals, you can rely on the quality of our work because we only use the very best materials and the latest technology.

Large format printing is unique as the products are printed in larger than normal sizes and grab the attention of the viewer immediately. These substantial signs will be noticed by many potential customers as your company's brand will be represented on a greater scale, front and center. Additionally, large format printing is an affordable investment that actively engages with customers and leaves a lasting impression.

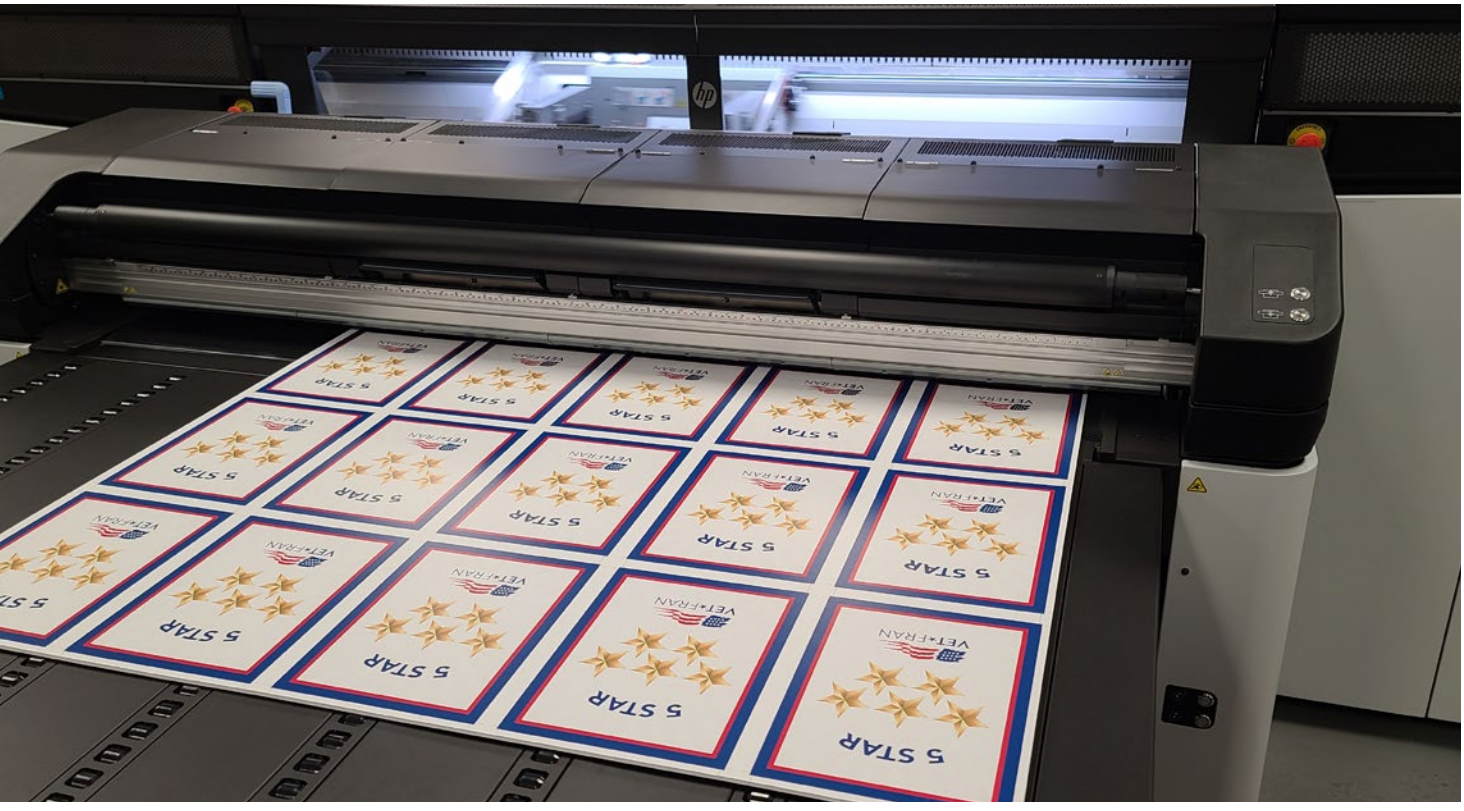

Signarama offers a variety of large format printing options for your message – indoors or outdoors. Make a lasting impression by highlighting a cohesive brand with large format printing at your next tradeshow or for your next big sale or promotion. Retail stores, mobile services, and countless other businesses, small and large, have benefited from Signarama's large format printing projects.

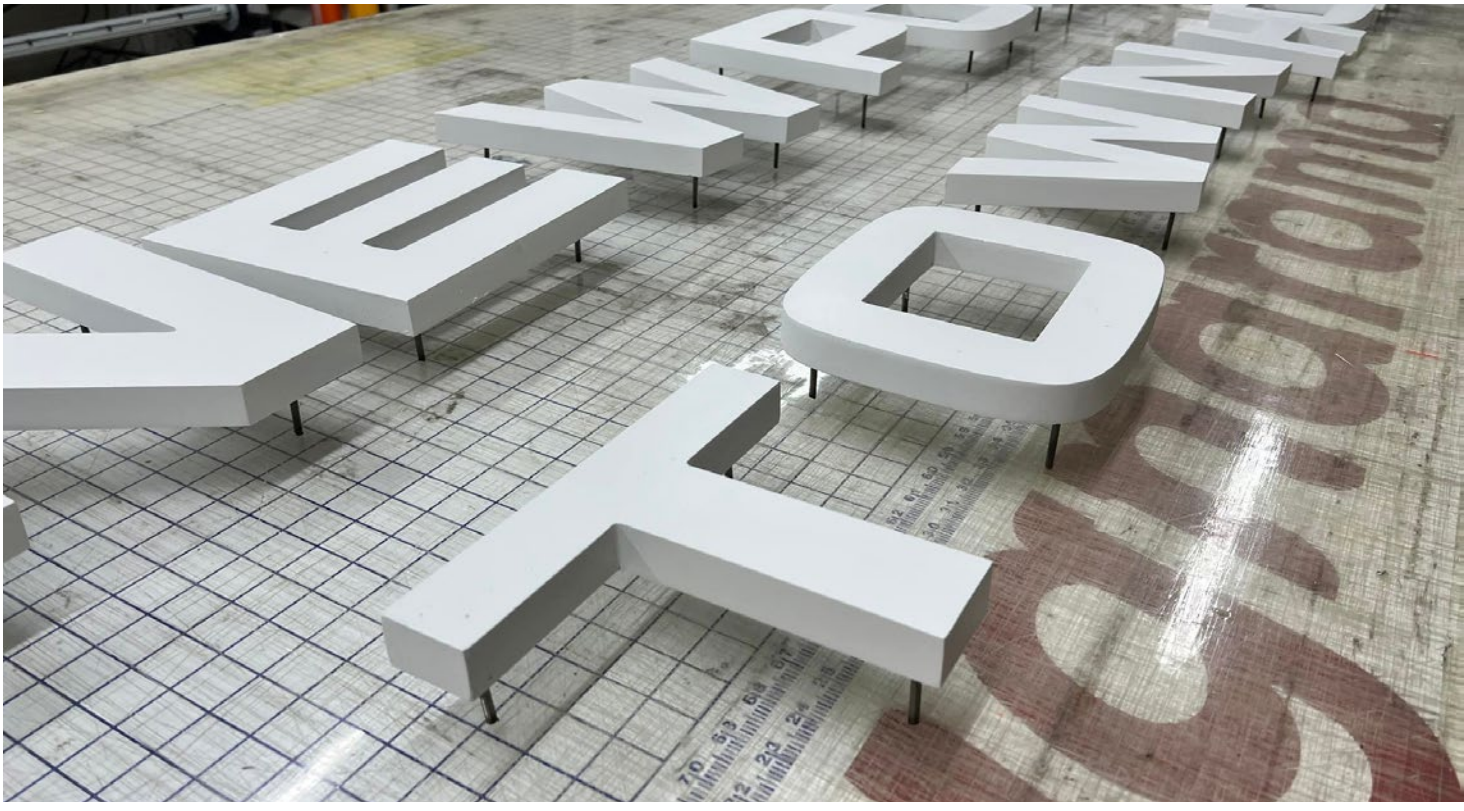

Upon the completion and approval of your sign design, our team will handle the fabrication of your signage to ensure it is manufactured and constructed with the highest quality. A design is only as good as the sign it is presented on and our sign experts at Signarama take pride in their fabrication procedures to deliver the best end-product possible.

Our sign fabricators will work with you to align on materials and deadlines to ensure that we provide the highest possible customer service while meeting, if not exceeding, your expectations and signage needs. In many cases, your signs are one of your first touch-points with potential customers. Our goal is to provide you with signage you can be proud of that drives traffic to your location to meet your business goals.

No matter your signage needs, you can have peace of mind knowing that you're working with the leaders in the sign industry to bring your brand to life. From channel letters and dimensional letters to monument and pylon signs, our sign fabricators can provide the exact custom solutions your business needs.

Engraving is one of the oldest forms of signage and laser engraving brings that process into the modern era. Engraved signage transmits a feel of quality and permanence, ensuring that your signage presents a professional and experienced company image.

Like laser cutting, laser engraving uses a laser beam reduced in power to mark a variety of surfaces. A computer-controlled laser focuses light onto a surface, allowing extreme detail, photographic effects, and intricate cutting.

Signarama provides several custom engraving options in a variety of different materials and colors depending on your individual needs. Material choices include various colored plastics, metal, glass, and brass. With laser engraving, we provide an added level of detail to all your custom signs. Laser engraving is a great way to personalize promotional items and help you stand out from the competition.

Whether you need a single nameplate or multiple directional signs, we offer a personal consultation for all your custom laser engraving needs.

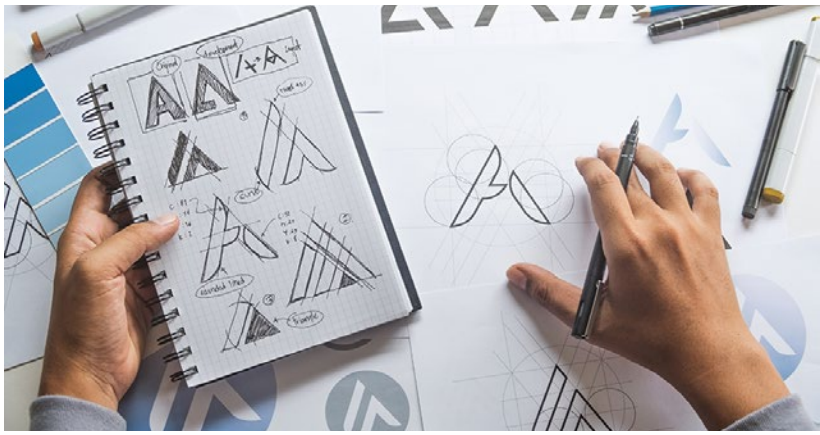

Every brand has a story to tell, and every successful business presents that story in a compelling and creative way. Our job is to ensure that story is present in every aspect of your communication, from the colors you choose to the fonts and graphics.

Is your graphic design driving home your key messages? Is it inspiring customer action? By keeping up with modern graphic design trends, our team can ensure that your message will resonate with your target audience and grow your business. If you have a design team within your organization, we can collaborate with them to ensure your design in consistent and cohesive with your vision. Our design experts will work with you every step of the way to ensure every aspect of your company's design, including your logo, is communicating who your brand is.

No matter what your graphic design needs are, we can convert your idea into a high-quality design with print-ready digital files. From marketing materials to building signs, and everything in between, our graphic designers are here to bring your vision to life.

Marketing materials can enhance the branding of your business and increase the exposure of your products and services. Whether you are a newly established business looking to create brand new marketing materials, or an established business in need of a refresh, communicating clearly with your customers is essential to the success of your business.

Marketing materials are one of the best ways to showcase your value to potential customers and share your brand mission and story. These items can include business cards, posters, promotion products, brochures, and more.

Our graphic designers will work with you to create high-quality marketing materials that highlight your products or services in a cohesive and inspiring manner. With experience in a variety of industries, we know what captures the attention of your target audience and will provide you with the materials guaranteed to make an impact on potential customers.

Utilize every opportunity to attract customers to your business by showcasing your logo, brand values, unique attributes, and contact information. Your company's image is a direct reflection of the quality of your services. Our team of experts will work with you to determine which marketing materials are best suited for your brand and your marketing plan.

Modern businesses must tackle the challenge of operating a successful, profitable business while also being environmentally sustainable. Sustainability has become an important factor for the average consumer. The fewer resources a business utilizes, the better. Businesses, aware of customer preferences, have made changes and improvements to their branding to reflect a consciousness towards making the earth cleaner with eco-friendly options for signage materials and products.

Advances in signage materials and products have enabled businesses to remain environmentally vigilant while displaying bold and bright signs. Signarama prioritizes these concerns by utilizing manufacturing processes that reduce waste. Recycling materials is also a part of our way of reducing our carbon footprint.

Signarama offers a variety of eco-friendly products. LED backlit signs are popular for their visibility both day and night while using less electricity that other traditional lighted signage options. We offer a variety of material options that are easily broken down and recyclable. We can also create reusable signage for your business to economically deliver your message time and time again.

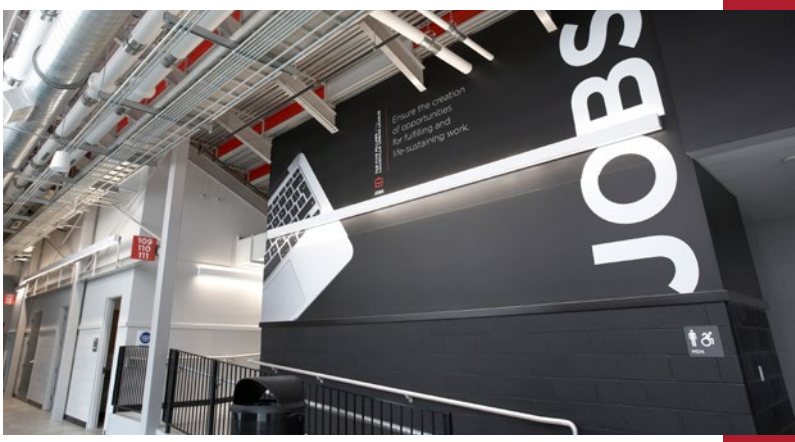

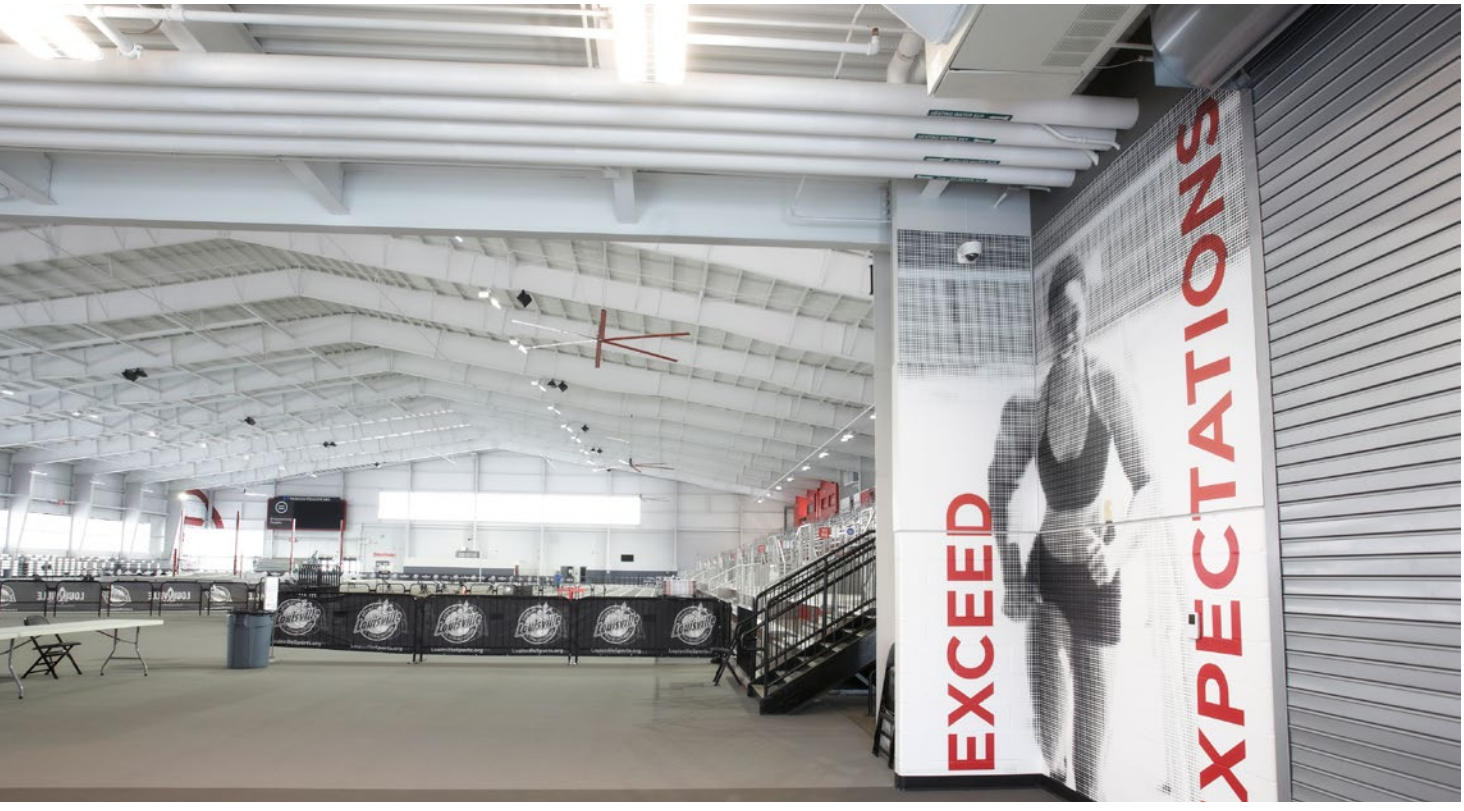

Environmental branding allows you to extend your mission, vision, company values, and branding elements into the physical space. By collaborating with your different departments, we can work with you to create a package that ensures both employees and customers understand your value proposition from the moment they set foot into your office.

There are few things less inspiring than dull office space and gray walls. While there's nothing wrong with this functionally, it leaves much to be desired from an interior design perspective. Environmental branding optimizes the traditional office environment and transforms your space to match your other branding and marketing efforts.

From wall and window graphics to vinyl prints and custom art, we can work with you to identify the branding pieces that will maximize your environmental branding efforts to enhance motivation and improve your reputation. Today's modern employees expect their work environment to match the mission, vision, and values of their company. Put your best foot forward with high-quality environmental branding solutions to improve employee performance and enhance the growth of your business.

BUSINESS SERVICES

Page 141

Signarama knows that every industry requires specific solutions when it comes to your corporate image, your location and the type of business you own. From agricultural and energy facilities to office parks and home services industries, Signarama offers many eye-catching options for your interior and exterior signage. Whether you own a café, retail boutique, a business competing for attention in busy urban areas, an automobile dealerships hoping to stand out amongst competition, and big box stores and warehouses that need to attract the attention of vehicle traffic in bustling, metro shopping areas, we've got the signs you need to succeed.

1

PYLON SIGN

Pylon signs are free-standing, outdoor structures that list your business name and logo. They're designed to increase the "height" of your business and increase your exposure from a distance. Pylon signs are among the most popular forms of dealership signage that ensure your location stands out from the competition to get your business noticed.

2

FLAGS & BANNERS

Flags and banners are a fantastic method to promote your dealership's offerings or special events both on- and off-site. Feather flags are ideal for highlighting upcoming or current promotions, while mesh and vinyl banners are the perfect solution for showcasing your products.

3

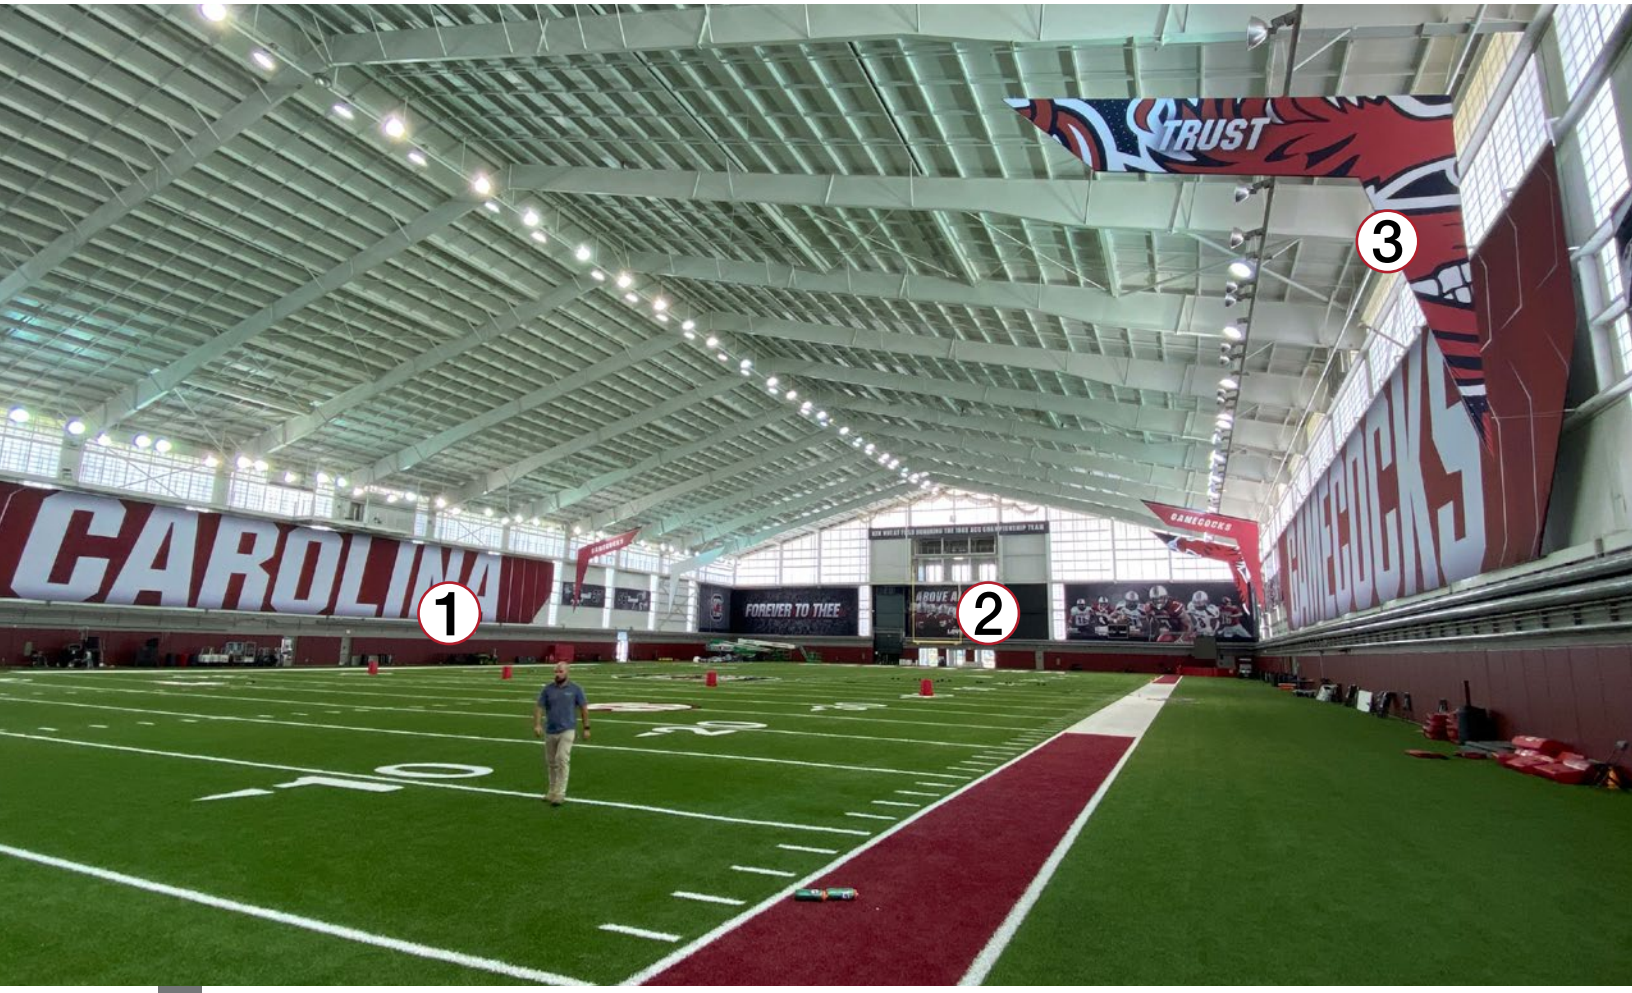

DIMENSIONAL LETTERS

When looking for signage to identify your dealership, dimensional lettering is an extremely popular solution. Exterior dimensional lettering aids in location identification and can be used to compliment other site-specific signage, such as pylon signs. Internal dimensional signage can be installed on bare walls as a method of interior branding or to designate offices, meeting rooms, and other spaces.

4

WINDOW GRAPHICS

As with vehicle graphics, window graphics are a great way to maximize branding opportunities at your location. These popular one-way signs serve as eye-catching advertising, while not obstructing visibility or compromising your natural light. Window graphics are easy to install and remove, making them a great solution for seasonal advertising or long-term branding.

1

BANNERS

Banners come in a wide array of full-color printed graphics on lightweight, washable, and highly portable material. Perfect for showcasing your team's name and logo, banners are ideal for promoting the big game or supporting your team all season long.

2

MURALS

Extend your interior athletic branding with custom murals. Whether you're looking to upgrade your locker room, weight room, or practice facility, murals are an excellent choice when looking to spread your messaging to keep your teams focused and motivated. Make your walls stand out by adding lighting or three-dimensional portions.

3

FLAGS

Mobile, lightweight, and easy to install, flags are an easy way to show your support for your athletic teams. Perfect for outdoor advertising, feather flags can be used to identify event locations or bring awareness to upcoming games. Designed to move with the wind, they're sure to capture the attention of your audience.

CUSTOM DECALS

Take your team spirit to the next level with custom vehicle decals. Show off the team mascot or logo or create a fully customized design to support your favorite player. Whether your vehicle is parked or on the road, vehicle decals are your go-to solution for taking your fandom on-the-go, no matter where you are.

1

OSHA & SAFETY SIGNS

Construction sites have mandatory signage needs to satisfy the requirements of OSHA regulations. In addition, your job sites require the right safety signage to safeguard and educate on-site employees and residents. Signarama can customize OSHA and safety signage for contractors and construction business featuring your branding and safety information while meeting OSHA standards.

2

MESH BANNERS

It's crucial for construction companies and contractors to promote their brand on-site and their latest projects. Mesh banners are commonly used for this purpose in the industry because they are easy to install, can be customized with your branding elements, and are guaranteed to draw attention to your company.

3

SITE SIGNS

When site signage is required for a job in progress, Signarama can design the perfect signage to advertise the project, inform customers that the business is open during construction, and let others know who to contact for questions. Site signs can take many forms, and our experts can assist you in determining the best option for your location.

VEHICLE GRAPHICS

Utilize vehicle graphics to ensure your company's name is visible wherever you go. Whether you are looking for a vehicle magnet, custom vehicle lettering, or a vehicle wrap, we can provide the signage solutions you need to advertise your brand wherever you go. Looking to brand your entire fleet of vehicles? We can create a unified appearance for all of your vehicles.

1

WALL GRAPHICS

Personalized wall graphics will spruce up your office walls and bring new life to your interior. One of the best ways to spread your message and improve the inside of your real estate business is through environmental branding. Our team of experts is here to bring your brand to life, whether you're searching for a simple graphic or a completely unique design.

2

CUSTOM SIGNS

Real estate offices can take advantage of a variety of interior and exterior custom signage. Invest in high-quality building signs to enhance your reputation as a trustworthy real estate business or consider adding interior signage at reception areas or hallways to maximize branding opportunities at your location.

3

MARKETING MATERIALS

Our services go beyond traditional signage. Trust Signarama to produce marketing materials designed to sell your listings and promote your business. We can advance your brand's marketing initiatives with fully branded marketing materials, ranging from business cards and brochures to posters, promotional products, and awards.

4

YARD SIGNS

Our custom yard signs are a great way to get your listing noticed in any neighborhood. We offer a variety of signage solutions from post and panel signs that offer an elegant look to stake signs that can be placed in a moment's notice for temporary use.

1

RETRACTABLE BANNERS

Retractable banners are available in a variety of styles, colors, and are designed to serve as backdrops or advertising tools at your trade show booth or event. They function as an announcement pre-event or as a display at the event and are easy to reuse again and again.

2

TRADESHOW DISPLAYS

These must-have displays for conventions, tradeshows, expos, and other events provide optimum visibility. With so many opportunities to network and grow your business at these events, it's essential to invest in a professional display to market your company and drive traffic to your booth.

3

ILLUMINATED SIGNAGE

Use lighted signs to upgrade your trade show and event signage. With vibrant colors and an additional level of customization, illuminated signs provide you the opportunity to capture everyone's attention. When planning your next event, think about including lighted signs as a durable and affordable advertising option.

4

FLAGS

Advertise your event and drive traffic to your location with custom flags. Flags are perfect for gaining the attention of your audience to provide pertinent information about your upcoming event. They can also be used at your tradeshow booth to add an extra dimension to your advertising efforts and make your business stand out.

1

WINDOW GRAPHICS

Many financial and legal services offices use window graphics throughout their location. Window frosting is a great solution when you need to create privacy in offices or conference rooms, but still want to allow natural light to enter the space. Window frosting is also recommended for adding your logo to your front windows.

2

DIMENSIONAL LETTERS

Showcase your financial or legal services logo with professional dimensional lettering. Dimensional letters can be used in the interior of your office in reception areas, empty walls, or offices to elevate your interior branding. They can also be used on the exterior of your building to professionally identify your location, enhancing your reputation.

3

CUSTOM INTERIOR SIGNAGE

When you're looking to distinguish your office from your competitors, custom interior signage is the ideal solution. From front lobbies to conference rooms, Signarama understands your need to stand out from the competition in a highly engaging yet professional manner. Use custom interior signage to create powerful messaging for your brand using a variety of strategies and techniques.

4

VINYL WRAP

Interior vinyl wraps are designed to complement your brand and fit your budget. Reception areas can benefit from wrapping the front of the desk to create a positive first impression and extend your brand messaging. Vinyl wraps can also be used on your interior walls for conference rooms or front lobbies for environmental branding.

1

YARD SIGNS

Yard signs are a highly effective way to promote your home services business throughout your community. Yard signs are especially impactful in areas with large foot traffic, like neighborhoods and residential areas. If you're looking for a cost-efficient way to expand your business, consider adding yard signs to your advertising budget.

2

VEHICLE WRAPS

On average, vehicle wraps can generate 55,000 impressions per day. In fact, 98% of Americans indicate that they notice vehicle advertising. Make your vehicle work for you while you're on the job with custom vehicle graphics that will stand out whether you're on the road or at your next job.

3

VEHICLE DECALS & MAGNETS

Like vehicle wraps, vehicle decals and magnets are another cost-efficient way to promote your business, no matter where you are. Decals are perfect for sharing your location information on the go or adding your logo to your vehicle. Vehicle magnets provide a more temporary solution while still providing effective brand awareness and advertising for your home services business.

PROMOTIONAL ITEMS

Promotional products are essential for every business, and home services are no exception. From flyers to distribute throughout residential areas and brochures to highlight all your services, to pens, mugs, and other promotional items, we offer a variety of solutions to showcase your business and stay top of mind before, during, and after the job.

1

CUSTOM PRINTS | Decor, Canvas Prints, Logos

Enhance your walls with luxurious custom prints around your hotel or conference center. Enhance the walls of your guest rooms with canvas prints or wall decor. Or consider designing prints that include your logo or align with your brand message. Signarama offers a variety of custom prints to upgrade your empty walls and create a comfortable space.

2

DIMENSIONAL LETTERING

Bring an added level of luxury and professionalism to your signage with dimensional letters. Dimensional letters are ideal for identifying different areas of your hospitality business, such as reception, room numbers, and conference rooms. They can also be used on the exterior of your building to identify your location with your business name or logo.

3

WALL GRAPHICS

Bring your walls to life with custom wall graphics. Environmental branding extends the message and values of your business throughout your building's interior and fosters customer loyalty. Utilize empty spaces like elevator doors, ceilings, and floors to create a unique guest experience.

4

ADA COMPLIANT SIGNS

All hotels, motels, inns, and other lodging establishments must have ADA compliant signs to ensure that their spaces are accessible to visitors. These signs are necessary in areas such as entrances, exits, elevators, restrooms, and parking lots. We can work with you to ensure these signs align with your brand, and can include specific shapes, colors, and even your logo.

1

WALL GRAPHICS

Transform the empty walls of your hospital, or clinic with creative wall graphics. These customized and highly-creative graphics designed to engage with your guests can create a calming and reassuring experience when they visit your facility. Wall graphics are also ideal for extending your interior branding and building brand loyalty with your visitors.

2

WAYFINDING SIGNS

Wayfinding signs are essential for the healthcare industry. Many hospitals and clinics have multiple floors, hallways, and rooms for specific needs. By adding wayfinding signage to your building, patients and visitors can easily identify where they are and where they need to go, which in turn enhance their experience at your location.

3

BANNERS

The healthcare industry is constantly evolving, and it's important that your health care facility can share updates in a highly visible and informative manner. One of the most effective and efficient ways to do this is with retractable banners. Easily portable and fully customizable, retractable banners can be designed to align with your branding and spread your message throughout your facility.

SAFETY & ADA SIGNS

All business in the healthcare industry require signage that is OSHA and ADA compliant. These signs ensure that hospitals and clinics are accessible to patients that visit your location. Safety signs are also essential to inform patients and visitors throughout your building or different safety rules and regulations.

1

CUSTOM LED LETTERING

Captivate your visitors or create a unique photo-op with custom LED lettering at your restaurant or bar. LED lettering can be used to identify different areas at your location, such as the bar or private dining room. They can also be used to extend your brand messaging in a visually appealing way.

2

MENU BOARDS

Coffee shops, bars, and quick services restaurants all need menu boards to inform guests of their offerings. If you're looking for a traditional solution, chalkboards and non-digital menu boards are a viable option. If you're looking for a sleek and modern design, digital menu boards might be right for you. Both options are fully customizable and easy to update when menus or prices change.

3

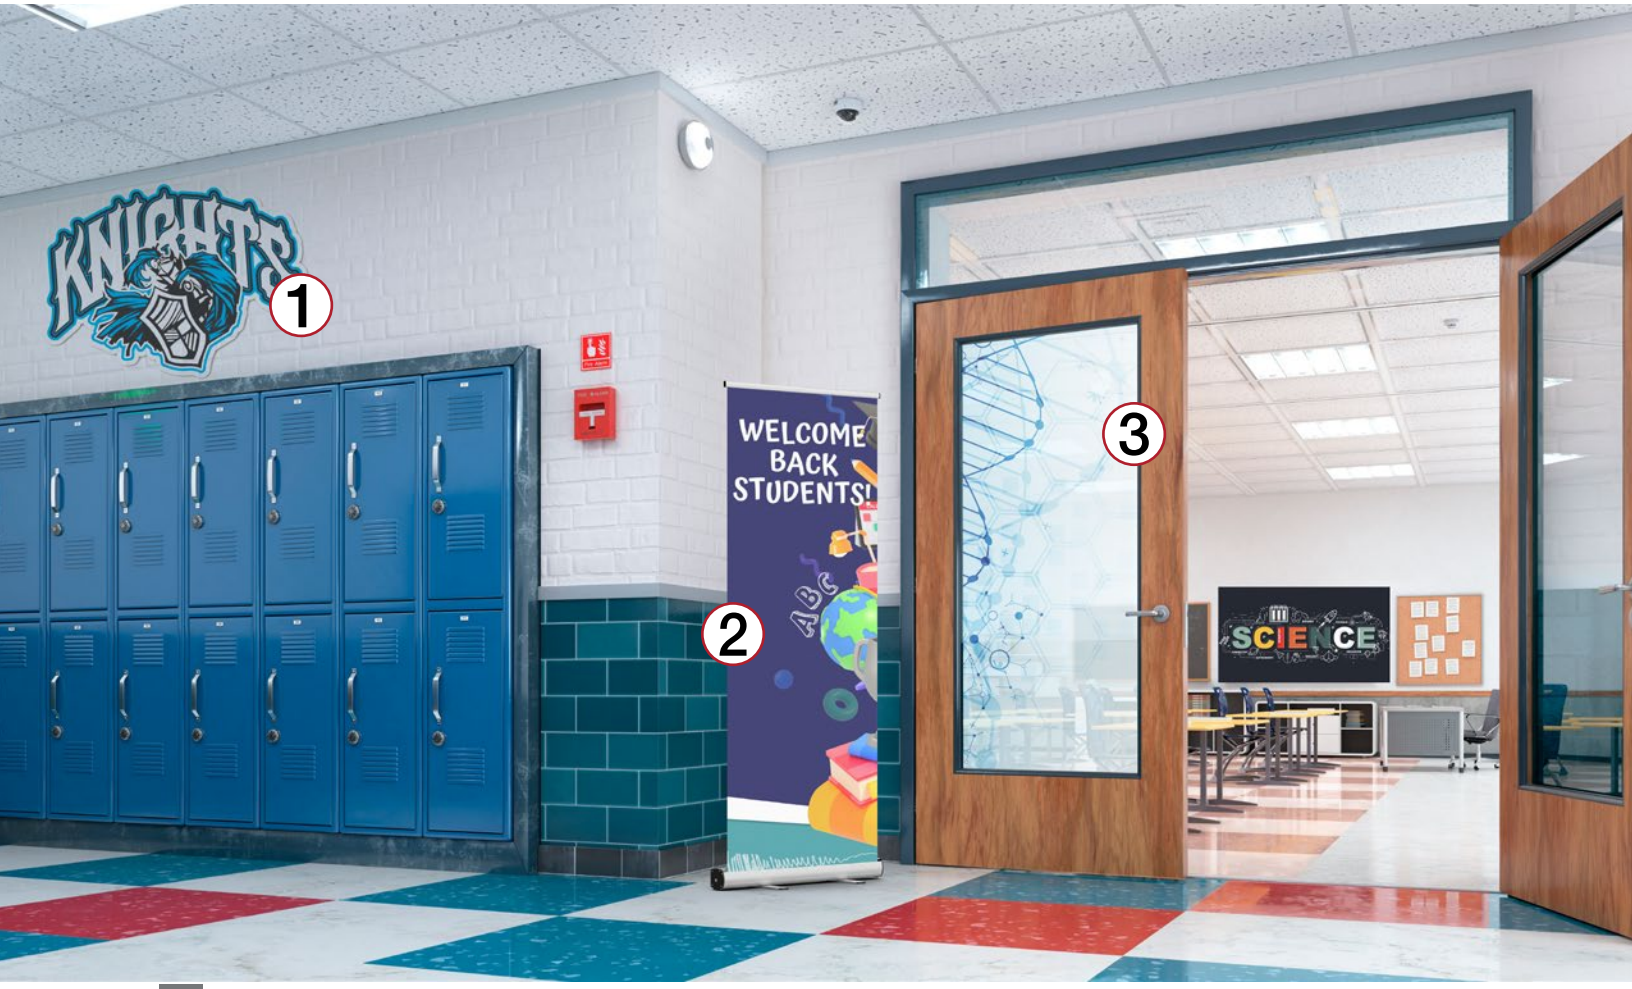

PROMOTIONAL SIGNAGE

Every restaurant and bar has certain specials, happy hours, or menu items worth highlighting. Promotional signage is one of the most effective ways to present these offerings to your customers. Whether you need a simple tabletop display or a front-and-center window graphic, we have a variety of solutions to ensure guests are aware of your promotional offerings.

4

WALL GRAPHICS & DECALS

Create an inviting atmosphere with custom wall graphics and decals. Wall graphics are a great way to use your empty space as advertisement while staying cohesive with your visual identity. Highlight upcoming events, menu changes, or promotions with interchangeable art, decals or snap frames.

1

WALL GRAPHICS & MURALS

Environmental branding brings your schools message and values to the forefront of your student's minds. Consider adding wall graphics and murals to your classrooms, athletic facilities, or hallways to convey the theme for the year, motivate your students, and encourage excellence in academics, athletics, and fine arts.

2

BANNERS

Banners are one of the best signage solutions to show your support for your students. Fabric banners can be used to promote your school's spirit at away games. Mesh banners can be used to welcome students and teachers back to school or promote upcoming events throughout the year.

3

WINDOW DECALS

Take advantage of the space provided by windows by adding window decals to your school. If your classrooms have windowed doors, consider using decals to extend your brand or highlight each subject. Exterior windows can also use window graphics to show your school spirit to all in the community.

DIRECTIONAL & WAYFINDING SIGNS

Clearly identify and lead students, faculty, and visitors to your campus in the right direction. Direction and wayfinding signs help people get to where they need to go quickly and safely. Identify classrooms and athletic facilities and point people in the right direction with high quality signage that can be customized to align with your school's brand.

1

SIDEWALK SIGNS

Ensure visitors and residents in the community are aware of your location's offerings with sidewalk signs. Not only are they cost effective, but they can also maximize your brands visibility. Whether you're looking to hire new employees or promote your services, sidewalk signs are an excellent tool for advertising to your community.

2

DIMENSIONAL LETTERING

Give your business services location a professional look with dimensional lettering. Display your business name or logo on the exterior of your location to identify your company or add dimensional lettering to the interior of your location to extend your brand throughout your space.

3

AWNING GRAPHICS

Awnings provide more than protection over doors and windows; they're also a great space to promote your business. Awning graphics create powerful marketing visuals for your building or storefront and are designed to complement the theme and expression of your business. Consider adding your logo, tagline, or custom images to your awnings and make a statement with a classic or contemporary look.

MONUMENT SIGNS

Make a great first impression for your business with a fully custom monument sign. These signs can imitate the architecture elements of your business to create a cohesive look that aligns with your brand. A strong first impression is critical to growing your client base, and monument signs are designed to boost your brand's exposure and strengthen your brand identity.

SIGNARAMA HISTORY

Signarama started in 1986 in New York. Father and son duo Roy and Ray Titus opened the first Signarama store in Farmingdale, NY. After their success locally, they decided to open a second location in Florida and began franchising shortly after. Signarama remains a family business to this day, with Ray's eldest son A.J. Titus, serving as brand President.

While Signarama is an international business, we put a value on small-town dedication to service. Each Signarama location is independently owned and operated by highly-trained sign experts who are ready to help solve customers' most pressing business challenges.

Signarama has held numerous honors in its rich history, and continues to evolve with each new innovation.

At Signarama, our commitment to exceptional customer service is at the heart of everything we do. Whether we're helping a small business open its first storefront or managing a nationwide rebrand, we approach every project with care, creativity, and professionalism. Our strength lies not only in our talented franchise owners and teams but also in our loyal vendor partners who help us deliver consistent, high-quality results. Backed by a trusted global network, Signarama is proud to serve as the signage partner of choice for businesses of all sizes, in every corner of the world.
